Principle Four: Offer New Experiences (Think different about the buying experience you offer your customers)
Chapter quote: "People don't want to buy personal computers. They want to know what they can do with them. In the Apple store, we'll show them." Steve Jobs

Principle Five: Say No to 1,000 Things (Think different about marketing and product design)
Chapter quote: "I'm as proud of what we don't do as I am of what we do." Steve Jobs

Principle Six: Master the Message (Think different about communicating the vision behind your service, product, company or cause)

Principle Seven: Inspire Evangelists (Think different about your employees)
Chapter quote: "Innovation has nothing to do with how many R&D dollars you have. When Apple came up with the Mac, IBM was spending at least 100 times more on R&D. It's not about the money. It's about the people you have, how you're led, and how much you get it." Steve Jobs

One More Thing.. Expect Excellence from Yourself and Others (What Steve Jobs has in common with Henry Ford and other innovative entrepreneurs)
Chapter quote: "Be a yardstick of quality. Some people aren't used to an environment where excellence is expected." Steve Jobs
