# Exploring Exercise Science

## Part 1: Introduction

- Chapter 1: Introduction to Exercise Science

## Part 2: Exploring the Physiologic

- Chapter 2: Exercise Physiology
- Chapter 3: Nutrition for Sports and Exercise

## Part 3: Exploring the Behavioral

- Chapter 4: Exercise and Sport psychology
- Chapter 5: Motor Learning and Motor Control

## Part 4: Exploring the Biomechanical

- Chapter 6: Biomechanics

## Part 5: Exploring Sports Medicine

- Chapter 7: Athletic Training

## Part 6: Exploring Social Science

- Chapter 8: Sociology of Physical Activity
- Chapter 9: History of Exercise and Sport

## Part 7: Exploring the Context and Future of Exercise Science

- Chapter 10: Current Societal Health Trends
- Chapter 11: Physical Activity Epidemiology
- Chapter 12: Laws That Affect Exercise Science
- Chapter 13: Ethical Considerations in Exercise Science
- Chapter 14: The Future of Exercise Science: Transdisciplinary Approaches to Research and Applied Intervention Strategies
