# Essentials of Stem Cell Biology

Lanza, Robert

## Table of Contents

- **FOREWORD**
  - Why Stem Cell Research?
  - A New Path (? Induced Pluripotent Stem Cells
  - Embryonic Stem Cells Versus Adult Stem Cells
  - 'Stemness': Definitions, Criteria and Standards

- **PART ONE**
  - INTRODUCTION TO STEM CELLS
    1. Present Perspective and Future Challenges
    2. Embryonic Stem Cells in Perspective
    3. The Development of Epithelial Stem Cell Concepts
    4. The Advent of Direct Reprogramming
    5. Clinical Translation of Stem Cells

- **PART TWO**
  - BASIC BIOLOGY/MECHANISMS
    6. Molecular Basis of Pluripotency
    7. Stem Cell Niches
    8. Mechanisms of Stem Cell Self-Renewal
    9. Cell Cycle Regulators in Stem Cells
    10. Epigenetic Mechanisms of Cellular Memory
    11. Cell Fusion and the Differentiated State
    12. How Cells Change Their Phenotype

- **PART THREE**
  - TISSUE AND ORGAN DEVELOPMENT
    13. Differentiation in Early Development
    14. Primordial Germ Cells in Mouse and Human
    15. Stem Cells in Extraembryonic Lineages
    16. Amniotic Fluid Derived Pluripotent Cells
    17. Cord Blood Stem Cells
    18. Neurogenesis in the Vertebrate Embryo
    19. The Nervous System
    20. Neuronal Progenitors in the Adult Brain
    21. Sensory Epithelium of the Eye and Ear
    22. Epithelial Skin Stem Cells
    23. The Ontogeny of the Hematopoietic System
    24. Hematopoietic Stem Cells
    25. Red Blood Cells
    26. Cell Differentiation in the Skeleton
    27. Vascular Progenitor Cells
    28. Multipotent Adult Progenitor Cells
    29. Mesenchymal Stem Cells
    30. Skeletal Muscle Stem Cells
    31. Stem Cells and the Regenerating Heart
    32. Potential of ES Cell Differentiation Culture for Vascular Biology
    33. Cell Lineages and Stem Cells in the Kidney
    34. Adult Liver Stem Cells
    35. Pancreatic Stem Cells
    36. Stem Cells in the Gastrointestinal Tract
    37. Stem Cells in the Lung

- **PART FOUR**
  - METHODS
    38. Generation of Induced Pluripotent Stem Cells
    39. Characteristics and Characterization of Pluripotent Stem Cells
    40. Isolation and Maintenance of Murine Embryonic Stem Cells
    41. Isolation, Characterization, and Maintenance of Primate ES Cells
    42. Approaches for Derivation and Maintenance of Human ES cells.
