Preface to Third Edition

Preface to Second Edition

Preface to First Edition

1. Classification and Diagnosis of Anemia During Childhood
2. Anemia During the Neonatal Period
3. Iron-Deficiency Anemia
4. Megaloblastic Anemia
5. Hematologic Manifestations of Systemic Illness
6. Bone Marrow Failure
7. Hemolytic Anemia Due to Membrane and Enzyme Defects
8. Hemoglobinopathies
9. Extracorpuscular Hemolytic Disease
10. Polycythemia
11. Disorders of the White Blood Cells
12. Disorders of Platelets
13. Hemostatic Disorders
14. Thrombotic Disorders
15. Lymphadenopathy and Splenomegaly
16. Lymphoproliferative Disorders, Myelodysplastic Syndromes and Myeloproliferative Disorders
17. Leukemias
18. Histiocytosis Syndromes
19. Hodkin’s Disease
20. Non-Hodkin’s Lymphoma
21. Central Nervous System Malignancies
22. Neuroblastoma
23. Wilms Tumor
24. Rhabdomyosarcoma and other Soft Tissue Sarcomas
25. Malignant Bone Tumors
26. Retinoblastoma
27. Germ Cell Tumors
28. Hepatic Tumors
29. Hematopoietic Stem Cell Transplantation
30. Management of Oncologic Emergencies
31. Supportive Care of Patients with Cancer
32. Evaluation, Investigations and Management of Late Effects of Childhood Cancer
33. Psychosocial Aspects of Cancer for Children and their Families

Appendix 1 Hematologic Reference Values
Appendix 2 Biological Tumor Markers
Appendix 3 Pharmacologic Properties of the Commonly Used Anticancer Drugs
