# Table of Contents

**Foreword**  
Myron L. Weisfeldt  

**Preface**  
Marianne J. Legato  

**Gender and development**  
George M. Lazarus  

**Introduction**  
George M. Lazarus  

**The role of gender in neonatology**  
Tove S. Rosen, David Bateman  

**Endocrinology and growth in children and adolescents**  
Gaya Aranoff, Jennifer Bell  

**Gender-specific pulmonary disease**  
Beverley J. Sheares  

**Gender-specific aspects of pediatric hematology and oncology**  
James H. Garvin, Jr.  

**Gender differences in neurologic conditions of children**  
David M. Kaufman  

**Gender and sports: past, present, and future**  
Melissa Rose, Jordan D. Metzl  

**Gender differences in child and adolescent behavior**  
Richard C. Sullivan  

**Central nervous system**  
William Byne  

**Introduction**  
William Byne  

**Gender differences in the functional organization of the brain**  
Ruben C. Gur, Raquel E. Gur  

**Do sex steroid hormones contribute to sexual differentiation of the human brain?**  
Marcia L. Collaer, Heather O. Tory, Mark C. Valkenburgh  

**Hormonal and nonhormonal mechanisms of sexual differentiation of the brain**  
Arthur P. Arnold, Robert J. Agate, Laura L. Carruth  

**Neuroprotective effects of estrogen**  
Annabell C. Segarra, Susan J. Lee  

**Brain trauma, sex hormones, neuronal survival, and recovery of function**  
Donald G. Stein  

**Gender differences in epilepsy**  
Martha J. Morrell  

**Sex hormones and headache**  
Dawn A. Marcus  

**Gender differences in psychiatric disorders with a focus on estrogen**  
Mary V. Seeman  

**Gender differences in psychopharmacology**  
Pierre Chue  

**The question of psychosexual neutrality at birth**  
William Byne, Christina Sekaer  

**Treating psychologic disorders during pregnancy and lactation**  
Kathryn M. Abel  

**Cardiology**  
Marianne J. Legato  

**Introduction**  
Marianne J. Legato  

**Gender and the heart: sex-specific differences in normal myocardial anatomy and physiology and in the experiences of some diseases of the cardiovascular system**  
Marianne J. Legato, Jaswinder K. Legha  

**Gender and its impact on risk factors for cardiovascular disease**  
Shari S. Bassuk, JoAnn E. Manson
Gender-specific aspects of the experience of coronary artery disease
Barbara H. Roberts

Gender differences in the outcome of acute myocardial infarction
Viola Vaccarino, Susmita Mallik

Dyslipidemia Management in women and men: exploring potential gender differences
Megan Rist Haymart, Jerilyn Allen, Caitlin M. Nass, Roger S. Blumenthal

Impact of gender on the response to cardioactive drugs
Michael R. Rosen, Thai Pham

Hormone replacement therapy and cardioprotection
Philip M. Sarrel, Giuseppe M. C. Rosano

Gender differences in the role of stress and emotion in cardiovascular function and disease
David E. Anderson, Margaret A. Chesney

Importance of and barriers to including women in clinical trials
Karen L. Moncher, Pamela S. Douglas

Pulmonology
David R. Trawick

Introduction
David R. Trawick

Asthma: the need for different approaches by sex and gender
Ian Mitchell, Candice Bjornson, Gordon Ford

Sex, gender, and chronic obstructive pulmonary disease
Dawn L. DeMeo, Edwin K. Silverman

Gender-specific considerations in interstitial lung disease
Katherine M. A. O'Reilly, L. Eugene Daugherty, Patricia J. Sime

Gender-specific considerations in pulmonary hypertension
Gerald Supinski, Leigh Ann Callahan

Venous thromboembolism: gender effects and gender-specific risk factors for women
Susan Murin, Lisa Moores, Kathryn L. Bilello, Richard A. Matthy

The influence of gender on cough reflex sensitivity
David R. Trawick

Obstructive sleep apnea: why the gender bias?
Maged Tanios, Carolyn D'Ambrosio

Gender differences in the sepsis syndrome: clinical evidence and potential mechanisms
Anthony P. Pietropaoli

Gastroenterology
Robyn G. Karlstadt

Introduction
Robyn G. Karlstadt

Normal physiology of the gastrointestinal tract and gender differences
Robyn G. Karlstadt, Daniel L. Hogan, Amy Foxx-Orenstein

Gender differences in esophageal function
Donald O. Castell, Promilla Banarjee

Sex-specific features of diseases of the stomach
Viaya S. Pratha

Small intestine and colonic diseases
Jill Aimee Addesa, Deborah Denise Proctor

Gender considerations in inflammatory bowel disease
Sarathchandra I. Reddy, Jacqueline L. Wolf

Gender-related differences in functional bowel disorders
Lin Chang, Margaret M. Heitkemper

Gallbladder and biliary diseases: more common in women, more severe in men
Jose Erbella, Lillian G. Dawes

Effect of gender on pancreatic disease
Colm J. O'Loughlin, Umprarasanna S. Kamam, Jamie S. Barkin

Gender-specific issues in liver diseases
Haris S. Conjeevaram

Gender difference in gastrointestinal endoscopy
Marcia Irene Canto, Marcia Cruz-Correa, Dayna Early

Reproductive biology
Lauri Romanzi

Introduction
Lauri Romanzi

The birth of reproductive biology 1889 to 1940: an historical perspective
Susan C. Fox

Modern contraception in men and women
Edward J. Stanford, Timothy J. Ramsden, Lee P. Shulman

Ambiguous genitalia in the newborn
Albert M. Ong, John P. Gearhart
A practical approach to male infertility
Carin V. Hopps, Peter N. Schlegel, Marc Goldstein

Female infertility and assisted reproductive technology
Sonya Kashyap, Pak Chung

Chronic pelvic pain in men and women: pathogenesis, diagnosis, and treatment
Edward J. Stanford

Male and female sexual dysfunction: epidemiology, pathophysiology, classifications, and treatment
Aristotelis G. Anastasiadis, Dmitry Droggin, Anne R. Davis, Laurent Salomon, Ridwan Shabsigh

Lower urogenital tract dysfunction in women and men
Adam J. Flisser, Jeffery P. Weiss, Jerry G. Blaivas

Colorectal disease in women and men
Costanza Cocilovo, Toyooki Sonoda, Jeffrey W. Milesom

Aging and the lower urogenital system
Catherine E. DuBeau

The consequences of intersex conditions in adult life
C. R. J. Woodhouse

Oncology
Amy Tiersten

Introduction
Amy Tiersten

Gender differences in hematologic malignancies
Gwen L. Nichols

Effects of hormone deprivation in survivors of breast and prostate cancer
Dawn Hershman, Ellen Ritchie, Zachary Rosner

The difference between male and female breast cancer
Meredith Selleck, Amy Tiersten

Difference in the germ cell tumors of the reproductive tract in men and women
Tatjana Kolevska, Amy Tiersten

Gender and gastrointestinal malignancies: incidence and response to treatment
Kyriakos Papadopoulos

Gender influences on the development and progression of brain tumors
Casilda Balmaceda, Jennifer Rossi

Gender difference in hereditary cancer syndromes: risks, management, and testing for inherited predisposition to cancer
Donna Russo, Wendy K. Chung

Cancer screening
Naseem Zojwalla, David Fogelman, Alfred I. Neugut

Nutrition
Ann M. Coulston

Introduction
Ann M. Coulston

Energy requirements of men and women
Susan B. Roberts, Sai Krupa Das

Anorexia, bulimia, disordered eating and obesity
Diann M. Ackard

The influence of gender differences in metabolism upon nutritional recommendations for athletes
Mark A. Tamposky

Cardiovascular disease, genes, and nutrition: gender matters
Jose M. Ordovas, Li-Ming Loh

Insulin resistance and type 2 diabetes mellitus: gender differences and similarities
Ann M. Coulston

The role of nutrition in the modulation of sex steroids
Alison M. Duncan, William R. Phipps, Mindy S. Kurzer

Nutrition and cancers of the breast, endometrium, and ovary
Cheryl L. Rock, Wendy Demark-Wahnefried

Nutrition and the etiology and prevention of prostate cancer
Laurence N. Kolonel

Human papillomavirus infection in men and women: the impact of nutrition on cervical cancer
Mack T. Ruffin, Cheryl L. Rock

Nutritional antioxidants, vitamins, cognition, and neurodegenerative disease
Antonio Martin, Mark A. Smith, George Perry, James Joseph

Drug metabolism
Janice B. Schwartz

Introduction
Janice B. Schwartz

Anticoagulants/antithrombotic therapy
Steven R. Kayser

Pain medications: differences between the sexes
Christine Miaskowski, Jon D. Levine
Evaluation of drugs in women: regulatory perspective
Shiew-Mei Huang, Margaret Miller, Theresa Toigo, Min C. Chen, Chandra Sahajwalla, Lawrence J. Lesko, Robert Temple

Gender and antidepressants
Robert R. Bies, Kristin L. Bigos, Bruce G. Pollock
Consideration for the use of therapeutic drugs during pregnancy and the perinatal period
Marilynn C. Frederiksen

Weight reduction therapies: anorectants, thermogenics, and lipolytics
Christine A. Haller

Hormone replacement therapy: looking closely at low dose
Donna Shoupe

Use of oral contraceptive for contraception
Ronald T. Burkman, Kristin L. Dardano

Infectious disease
Scott M. Hammer
Introduction
Scott M. Hammer
Gender and bacterial infections
Simon J. Tsiliouris, Franklin D. Low

Gender-specific issues in fungal infections
Nigar Kimani, William G. Powderly

Sex and gender-specific issues in HIV pathogenesis
R. Scott McClellad, Robert W. Coombs

Gender-specific issues in the metabolic complications of HIV disease and its treatment
Marisa Tungsiripat-Gerber, Judith A. Aberg

The effect of gender on the epidemiology, clinical presentation, and management of tuberculosis
Cosmina Zeana, Wafaa El-Sadr

Gender-specific issues in non-HIV viral infections
Magdalena E. Sobieszczyk, Christine M. Hay

Gender-specific issues in parasitology
Michael Yin, Dickson D. Despommier

Sexually transmitted infections in men and women
Timothy Wilkin, Mary Ann Chiasson

Bone
John Bilezikian

Introduction
John Bilezikian
Corticosteroid-induced osteoporosis: a comprehensive review
Alexandra Papaioannou, Ann Cranney, Jonathan D. Adachi

Anabolic therapy of osteoporosis in women and in men
Mishaela R. Rubin, John P. Bilezikian

Antiresorptive therapies of osteoporosis in women and men
Carolyn Becker

The role of androgens and estrogens in the male skeleton
Sundeep Khosla, John P. Bilezikian

The clinical application of gender-based databases for the diagnosis of osteoporosis and fracture risk prediction
Paul D. Miller

Animal models for gender-based skeletal differences
Dirk Vanderschueren, Katrien Venken, Roger Bouillon

Epidemiology of osteoporosis and fracture in men and women
Anne C. Looker

Gender and sports medicine in the adult athlete
Claudia L. Ginsberg, Jordan D. Metzl

Immunology/Rheumatology
Robert G. Lahita

Introduction
Robert G. Lahita
Sexual dimorphism and the immune system
Virginia Rider, Nabih I. Abdou

Estrogen, signal transduction, and systemic lupus erythematosus: molecular mechanisms
Gray M. Kammer

Sex hormone metabolism, immune function, and the effect of sex hormones on various rheumatic diseases
Robert G. Lahita

Pregnancy - success or failure: the influence of autoimmune diseases
Ann L. Parke

Gender-specific issues in organ transplantation
Hilary Sanfey
Prolactin in autoimmune disease
Sara E. Walker

Aging
Kevin C. Fleming

Introduction
Kevin C. Fleming

A history of old age in America
Kevin C. Fleming

Breast diseases in older women and men
Sandhya Pruthi, Shilpa H. Amin

Care of the older woman: practical issues
Carol L. Kuhle

Cancer management in older women
Stacy D. Jacobson, Lynn C. Hartmann

The evaluation and treatment of urinary incontinence
Darryl S. Chutka

Effects of aging on gonadotropin/ovarian and growth hormone/ovarian relationships in normal women
William S. Evans, Kimberly T. Brill, Johannes D. Veldhuis

The principle syndromes of dementia
David Knopman

Mechanisms involved in gender differences in Alzheimer's disease: the role of leuteinizing and follicle stimulating hormones
Richard Bowen, Craig S. Atwood, George Perry, Mark A. Smith

Sect. 14. Future areas to expand

Gender differences in dermatology
Mary Gail Mercurio
