Table of Contents

Foreword Steven Hyman
Preface

Section I Biological Bases of Pediatric Psychopharmacology
Subsection I-A: Developmental Principles of Neurobiology and Psychopharmacology
1. Overview of Brain Development, Flora M. Vaccarino and James F. Leckman
2. Mechanisms of Signal Transduction and Adaptation to Psychotropic Drug Action, Lara M. Tolbert, Carrol D'Sa, and Ronald Duman
4. Pharmacokinetics II: Cytochrome P450-Mediated Interactions, Jessica R. Oesterheld and David A. Flockhart

Subsection I-B: Genetic Principles
5. Molecular Genetics, Surojit Paul and Paul J. Lombroso

Subsection I-C: Developmental Psychopathology
7. Neurobiology of Attention Regulation and its Disorders, Amy F.T. Arnsten and Francisco X. Castellanos
8. Neurobiology of Early-Life Stress and its Disorders, Christine Heim and Charles B. Nemeroof
9. Neurobiology of Early-Onset Mood Disorders, Joan Kaufman and Hilary Blumberg
10. Neurobiology of Early-Onset Anxiety Disorders, Christine Heim and Charles B. Nemeroof
12. Neurobiology of Tic Disorders, Including Tourette's Syndrome, James F. Leckman, Chin-Bin Yeh, and Paul J. Lombroso
14. Neurobiology of Childhood Schizophrenia and Related Disorders, Rob Nicolson and Judith L. Rapoport
15. Neurobiology of Attention: Implications for Autism-Spectrum Disorders, Sherie Novotny, Martin Evers, Katherine Barboza, Ron Rawitt, and Eric Hollander
16. Neurobiology of Aggression, Marcus J.P. Kruesi, Sondra Keller, and Mark W. Wagner
17. Neurobiology of Eating Disorders, Walter Kaye, Michael Strober, Kelly L. Klump
18. Neurobiology of Substance Abuse Disorders, Leslie K. Jacobsen

SECTION II: SOMATIC INTERVENTIONS
Subsection II-A: Psychotropic Agents
19. Stimulants, Rebecca E. Ford, Laurence Greenhill, and Kelly Posner
20. Antidepressants I: Selective Serotonin Reuptake Inhibitors, Sufen Chiu and Henrietta L. Leonard
21. Antidepressants II: Other Agents, John T. Walkup, Julia Ritter-Welzant, Elizabeth Kastelic, and Emily Frosh
22. Mood Stabilizers: Lithium, Anticonvulsants and Others, Pablo Davanzo and James McCracken
23. Antipsychotic Agents: Traditional and Atypical, Robert L. Findling, Nora K. McNamara, and Barbara L. Ghaziuddin
24. Antipsychotic Agents: Atypical, Robert A. King, Lawrence Scahill, Paul Lombroso, and James Leckman

Subsection II-B: Other Somatic Interventions
25. Electroconvulsive Therapy(ECT) and Transcranial Magnetic Stimulation(TMS), Garry Walter, Joseph M. Rey, and Neera Ghaziuddin
26. Miscellaneous Compounds: Beta-Blockers, Opiate Antagonists, and Others, Jan K. Buitelaar

SECTION III: ASSESSMENT AND TREATMENT
Subsection III-A: General Principles
27. Clinical Assessment of Children and Adolescents Treated Pharmacologically, Robert L. Hendren and Stephanie Hamarman
30. Combining Pharmacotherapy and Psychotherapy: An Evidence-Based Approach, John S. March and Karen Wells
31. Attention-Deficit Hyperactivity Disorder, Thomas Spencer, Joseph Biederman, Timothy Wilen, and oess Greene
32. Depression Disorder, Boris Birmaher and David Brent
33. Bipolar Disorder, Gabrielle A. Carlson
34. Anxiety Disorders, Michael J. LabelHarte and Golda S. Ginsburg
35. Obsessive Compulsive Disorder, Daniel A. Geller and Thomas Spencer
36. Tourette's Syndrome and Other Tic Disorders, Robert A. King, Lawrence Scahill, Paul Lombroso, and James Leckman
37. Early-Onset Schizophrenia, Helmut Remschmidt and Johannes Hebebrand
