

Atlas of Nerve Conduction Studies and Electromyography

Leis, A. Arturo

ISBN-13: 9780199754632

Table of Contents

1. Overview of Nerve Conduction Studies
 - How the peripheral nervous system conveys information
 - Stimulating and Recording Electrodes
 - Electrode Amplifiers and Ground Electrode
 - Reducing Artifacts and Interference
 - Electrical Safety
 - Temperature Effect
 - Effect of Aging
 - Motor Nerve Conduction
 - Measurements of the compound muscle action potential
 - Calculating conduction velocity
 - Sensory Nerve Conduction
 - Measurements of the sensory nerve action potential
 - Role of dorsal root ganglia (DRG) in localizing lesions
 - Late Responses: F-wave and H-reflex
 - Types of Nerve Injury
 - Neurapraxia
 - Features of demyelination
 - Axonal loss injury
 - Features of axonal loss
 - Wallerian degeneration
 - Ion channel disorders (channelopathies)
 - Features of channelopathies
 - Due to toxins,
 - Due to autoimmune conditions,
 - Due to genetic mutations
2. Overview of Electromyography
 - The motor unit
 - Innervation ratio
 - Muscle selection for needle EMG
 - The needle EMG examination
 - Insertional activity
 - Spontaneous activity
 - Fibrillation potentials
 - Positive sharp waves
 - Numeric grading scale to semi-quantify fibrillation potentials
 - Fasciculation potentials
 - Complex repetitive discharges
 - Myotonic discharges
 - Myokymic discharges
 - Neuromyotonic discharges
 - Isaac's syndrome and peripheral nerve hyperexcitability (PNH) syndrome
 - Cramp discharges
 - End-plate activity
 - Motor unit potentials (MUPs)
 - MUP parameters
 - Rise time
 - Duration
 - Amplitude
 - Phases and turns
 - Firing pattern and recruitment
 - Henneman's Size Principle
 - In neurogenic disorders
 - In myopathic disorders
 - Complications related to needle electromyography
3. Brachial Plexus
 - Upper trunk lesion
 - Middle trunk lesion
 - Lower trunk lesion
4. Median Nerve
 - Carpal tunnel syndrome
 - Anterior interosseous nerve syndrome
 - Pronator teres syndrome
 - Ligament of Struther's syndrome
 - Nerve conduction studies
 - Motor
 - Short segment ("inching technique")

F-wave
Martin-Gruber anastomosis
Sensory
Comparative studies for diagnosing carpal tunnel syndrome
Digital branch injury
Needle electromyography
Abductor Pollicis Brevis
Opponens Pollicis
Flexor Pollicis Brevis, Superficial Head
First and Second Lumbricals
Pronator Quadratus
Flexor Pollicis Longus
Flexor Digitorum Profundus, Digits 2 and 3
Flexor Digitorum Superficialis (sublimis)
Palmaris Longus
Flexor Carpi Radialis
Pronator Teres

5. Ulnar Nerve

Ulnar neuropathy at the elbow (retrocondylar groove)
Ulnar neuropathy at the elbow (cubital tunnel syndrome)
Ulnar neuropathy at the wrist (Guyon's canal)
Nerve conduction studies
Motor
Short segment ("inching technique")
F-wave
Martin-Gruber anastomosis
Riches-Cannieu anastomosis ("all ulnar hand")
Sensory
Needle electromyography
Adductor Pollicis
Flexor Pollicis Brevis, Deep Head
First Dorsal Interosseous
Second, Third, and Fourth Dorsal Interossei
Palmar Interossei
Third and Fourth Lumbricals
Abductor Digiti Minimi
Opponens Digiti Minimi
Flexor Digiti Minimi
Flexor Digitorum Profundus, Digits 4 and 5
Flexor Carpi Ulnaris

6. Radial Nerve

Radial nerve lesion in the arm
Radial nerve lesion in the axilla
Posterior interosseous nerve syndrome
Superficial radial nerve lesion
Nerve conduction studies
Motor
Sensory
Anomalous innervation to ulnar dorsum of hand
Needle electromyography
Extensor Indicis Proprius
Extensor Pollicis Brevis
Extensor Pollicis Longus
Abductor Pollicis Longus
Extensor Digitorum Communis and Extensor Digiti Minimi
Extensor Carpi Ulnaris
Supinator
Extensor Carpi Radialis, Longus and Brevis
Brachioradialis
Anconeus
Triceps, Lateral Head
Triceps, Long Head
Triceps, Medial Head

7. Axillary Nerve

Axillary nerve lesion
Motor nerve conduction study
Needle electromyography
Deltoid, Anterior Fibers
Deltoid, Middle Fibers
Deltoid, Posterior Fibers
Teres Minor

8. Musculocutaneous Nerve

Musculocutaneous nerve lesion
Nerve conduction studies
Motor
Sensory (lateral cutaneous nerve of the forearm)
Needle electromyography
Brachialis
Biceps Brachii
Coracobrachialis

9. Medial Cutaneous Nerve of the Forearm

Lesion of the medial cutaneous nerve of the forearm
Sensory nerve conduction study

10. Suprascapular Nerve

Suprascapular nerve lesion
Motor nerve conduction study
Needle electromyography
Infraspinatus
Supraspinatus

11. Dorsal Scapular Nerve

Dorsal scapular nerve lesion
Needle electromyography
Rhomboideus Major and Minor
Levator Scapulae

12. Long Thoracic Nerve

Long thoracic nerve lesion
Motor nerve conduction study
Needle electromyography
Serratus Anterior

13. Subscapular Nerves and the Thoracodorsal Nerve

Needle electromyography
Teres Major
Latissimus Dorsi

14. Medial and Lateral Pectoral Nerves

Needle electromyography
Pectoralis Major
Pectoralis Minor

15. Cervical Plexus

Needle electromyography
Sternocleidomastoid
Trapezius
Levator Scapulae

16. Phrenic Nerve

Phrenic nerve lesion
Phrenic nerve conduction studies
Needle electromyography
Diaphragm

17. Sacral Plexus

Sacral plexus lesion

18. Sciatic Nerve

Sciatic nerve lesion
Needle electromyography
Semitendinosus
Semimembranosus
Biceps Femoris (Long Head)
Biceps Femoris (Short Head)

19. Tibial Nerve

Tarsal tunnel syndrome
Nerve conduction studies
Motor
F-wave
Sensory (sural nerve)
H-Reflex
Medial and lateral plantar (mixed nerve)
Needle electromyography
Gastrocnemius, Medial Head
Gastrocnemius, Lateral Head
Soleus
Tibialis Posterior
Flexor Digitorum Longus
Flexor Hallucis Longus
Popliteus
Abductor Hallucis
Flexor Digitorum Brevis
Flexor Hallucis Brevis
Abductor Digiti Minimi (Quinti)
Adductor Hallucis

20. Common Peroneal Nerve

Common peroneal mononeuropathy at the knee
Nerve conduction studies
Motor (Extensor digitorum brevis)
F-wave
Accessory deep peroneal nerve
Motor (tibialis anterior)

Short segment ("inching technique") across the knee
Sensory (superficial peroneal)
Needle electromyography
Tibialis Anterior
Extensor Digitorum Longus
Extensor Hallucis Longus
Peroneus Tertius
Extensor Digitorum Brevis
Peroneus Longus
Peroneus Brevis

21. Superior Gluteal Nerve
Needle electromyography
Gluteus Medius
Gluteus Minimus
Tensor Fasciae Latae

22. Inferior Gluteal Nerve
Needle electromyography
Gluteus Maximus

23. Pudendal Nerve
Pudendal nerve lesion
Needle electromyography
Sphincter Ani Externus (External Anal Sphincter)
Levator Ani

24. Lumbar Plexus
Lesion of the lateral femoral cutaneous nerve (meralgia paresthetica)
Lateral femoral cutaneous nerve conduction study
Needle electromyography of abdominal wall muscles
External Oblique, Internal Oblique and Transversus Abdominis

25. Femoral Nerve
Femoral nerve lesion
Nerve conduction studies
Motor
Sensory (saphenous nerve)
Needle electromyography
Iliacus (Iliopsoas)
Pectineus
Sartorius
Rectus Femoris
Vastus Lateralis
Vastus Intermedius
Vastus Medialis

26. Obturator Nerve
Obturator nerve lesion
Needle electromyography
Adductor Longus
Adductor Brevis
Adductor Magnus
Gracilis

27. Paraspinal Muscles
Needle electromyography
Cervical Paraspinal
Thoracic Paraspinal
Lumbosacral Paraspinal

28. Cranial Nerves and Muscles
Facial motor conduction studies
Blink reflex studies
Needle electromyography
Frontalis
Orbicularis Oculi
Orbicularis Oris
Masseter
Tongue

29. Dermatomes and Peripheral Nerve Cutaneous Distributions
