Craniofacial Distraction Osteogenesis
Samchukov, Mikhail L. MD

Table of Contents
1. Historical Development and Evolution of Craniofacial Distraction Osteogenesis
   Jason B. Cope, Mikhail L. Samchukov, Alexander M. Cherkashin
2. Biologic Basis of New Bone Formation Under the Influence of Tension Stress
   Mikhail L. Samchukov, Jason B. Cope, Alexander M. Cherkashin
   Minoru Ueda, Megumi Matsuno, Kensuke Sakai
4. Mechanically Induced Tissue Response During Distraction
   Ulrich Meyer, Ulrich Joos, Birgit Kruse-Losler
5. Tooth Movement Into Regenerate Alveolar Bone: Experimental Basis and Clinical Results
   Jason B. Cope, Eric J. W. Liou, Alvaro A. Figueroa
6. Placement of Implants Into Distracted Bone
   Yasuhiro Nosaka
7. Histologic Evaluation of Human Bone Tissue 1 Year After Distraction
   Pier Francesco Nocini, Konrad Wangerin, Massimo Albanese
8. The Effect of Gradual Traction on Skeletal Muscles
   Marina R. Makarov, Mikhail L. Samchukov, Jason B. Cope
9. The Effect of Gradual Traction on Peripheral Nerves
   Marina R. Makarov, Mikhail L. Samchukov, Jason B. Cope
10. The Effect of Gradual Traction on Gingival Tissue
    Jason B. Cope, Mikhail L. Samchukov, David E. Muirhead
11. The Effect of Gradual Traction on the Periodontal Ligament
    Mikhail L. Samchukov, Jason B. Cope
12. Temporomandibular Joint Alterations During Distraction Osteogenesis
    Birgit Kruse-Losler, Ulrich Joos, Thomas Meyer
13. The Biomechanical Effects of Distraction Device Orientation During Mandibular Lengthening and Widening
    Mikhail L. Samchukov, Jason B. Cope, Alexander M. Cherkashin
14. Orthodontics in Intraoral Mandibular Distraction Osteogenesis
    Gisela I. Contasti, Aura Marina Rodriguez, Cesar A. Guerrero
15. Treatment Planning and Orthodontic Management of Patients Undergoing Mandibular Distraction Osteogenesis
    Pamela R. Hanson
16. Planning of Mandibular Distraction
    H. Wolfgang Losken
17. Classification of Mandibular Regenerate Bone
    Jason B. Cope, Mikhail L. Samchukov
18. Extraoral Mandibular Distraction Osteogenesis Using the Frankfurt Modular Distraction System
    Cornelius Klein
19. Mandibular Distraction Osteogenesis: Clinical Analysis of the First 10 Years
    Fernando Molina
20. Simultaneous Maxillomandibular Distraction
    Fernando Ortiz Monasterio, Fernando Molina
21. Pediatric Sleep Apnea Treated With Distraction Osteogenesis
    Kevin Smith, Michael Hamish
22. Mandibular Distraction Osteogenesis Using Extraoral and Intraoral Devices
    Adi Rachmiel
23. Evolution of Extraoral Mandibular Distraction: Case Reports
    David G. Genecov, Rajiv Agarwal, Edward R. Genecov
24. Three-Dimensional Intraoral Distraction Osteogenesis: An Orthodontic-Surgical Approach
    Cesar A. Guerrero, William H. Bell, Marianela Gonzalez
25. Mandibular Lengthening Using Intraoral Distractors
    Patrick A. Diner, Catherine Tomat, Bernard Sergent
26. Mandibular Symphyseal Widening by Distraction
    Catherine Tomat, Patrick A. Diner, Francois Coquille
27. Office-Based Mandibular Advancement With the MD-DOS Device
    Maurice Y. Mommaerts
28. Clinical Application of ROD Intraoral Custom Distraction Devices
    Yan Razdolsky, Stuart Dessner, Tarek El-Bialy
29. Orthodontic Indications for Mandibular Distraction  
   K. Ilero Breuning, Peter J. van Strijen

30. Factors in Timing of Mandibular Distraction: Case Reports  
   Karin Vargervik, William Y. Hoffman

31. Osteodistraction as an Alternative Therapy for Unstable Condyles: Case Reports  
   Joseph E. Van Sickels, James K. Hargan

32. Mandibular Growth After Osteodistraction  
   John C. Oelten, Larry H. Hollier, Joseph G. McCarthy

33. Distraction Osteogenesis of the Mandibular Symphysis  
   Greg F. Kewitt, Joseph E. Van Sickels

34. Buried Bidirectional Telescopic Mandibular Distraction  
   David A. Walker

35. Multiaxis Intraoral Distraction of the Mandible  
   Albino Triaca, Roger Minoretti, Werner Dimai

36. A New Spiral Distractor for Mandibular Osteodistraction  
   Stephen Schendel, Donald W. Linck II

37. Continuous Bone Distraction Using a Microhydraulic Cylinder  
   Jorg Wittfang, Peter Kessler

38. Basic Principles of Bone Transport  
   Mikhail L. Samchukov, Jason B. Cope, Alexander M. Cherkashin

39. Craniofacial Bone Transport  
   Suzanne U. Stucki-McCormick, Robert M. Fox, Ronald B. Bruder

40. Bone Transport for Mandibular Anterior Defect Reconstruction: A Case Report  
   Cornelius Klein

41. Introral Mandibular Bone Transport: A Case Report  
   Cesar A. Guerrero, William H. Bell, Marianela Gonzalez

42. Alveolar Bone Distraction and Implantology  
   Tomoo Oda, Minoru Ueda

43. Alveolar Distraction Osteogenesis  
   Martin Chin

44. Vertical Distraction of the Alveolar Process: A New Technique for Reconstructing the Alveolar Ridge  
   Johannes Hidding, Frank Lazar, Joachim E. Zoller

45. Alveolar Ridge Augmentation With the Aid of Distraction Implants  
   Alexander J. Gaggl, Gunter R. Schultes, Hans Karcher

46. Vertical Alveolar Ridge Augmentation Utilizing the ACE OsteoGenic Distractor  
   Bradley S. McAllister

47. Alveolar Bone Distraction for Implant Placement  
   Giacomo Urbani, Ugo Consolo, Giorgio Lombardo

48. Augmentation of Severe Mandibular Atrophy by Vertical Distraction Osteogenesis  
   Frits B. T. Perdijk, Peter J. van Strijen

49. Alveolar Mandibular Restoration by Vertical Distraction Osteogenesis in Cancer Patients  
   Vlado Smatt, Marie-Madeleine Plantet, Michel Robin

50. Vertical Alveolar Reconstruction by Distraction Osteogenesis: A Case Report  
   Alain Aldegheri, Alain Dubrana

   Jacques Buix, Herve Martinez, Veronique Soupre

52. Correction of Alveolar Ridge Deficiency Using the ROD-5 Distraction Device: A Case Report  
   Yan Razdolsky, Stuart Dessner, Tarek El-Bialy

53. Rapid Canine Retraction Using Distraction of the Periodontal Ligament  
   Eric J. W. Liou, C. Shing Huang

54. Regenerate Bone Formation During Maxillary and Midface Distraction  
   Adi Rachmiel

55. Distraction Osteogenesis for Treatment of Severe Cleft Maxillary Deficiency With the RED Technique  
   Alvaro A. Figueroa, John W. Polley, Ellen Ko

56. Maxillary Distraction Osteogenesis  
   Fernando Molina

57. Rigid External Distraction of the Maxilla: Technique and Clinical Cases  
   Siegmard Reinert, Michael Krimmel, Carl-Peter Cornelius

58. Three-Dimensional Midface Distraction  
   Harry C. Schwartz, John Beumer III

59. Midface Distraction Osteogenesis  
   Martin Chin

60. Midface Distraction  
   Steven R. Cohen, Ralph E. Holmes, Lester Machado

61. Maxillary Advancement Combined With Posterior Plate Reposition Via Distraction Osteogenesis: A Case Report  
   Cesar A. Guerrero, William H. Bell, Marianela Gonzalez

62. Distraction Osteogenesis in Maxillary Hypoplasia Using Internal Devices: Case Reports
63. Correction of Maxillary Deficiency Using the ROD-4 Distraction Device: A Case Report
   Yan Razdolsky, Stuart Dessner, Tarek El-Bialy

64. Substitution of Cranial Defects by Bone Transport
   Vladimir I. Shevtsov, Alexander N. Diachkov, Alexander T. Khudiaev

65. Craniofacial Distraction Osteogenesis for Correction of Midface and Cranial Hypoplasia
   Tanetaka Akizuki, Kitaro Ohnori

   Seiichiro Kobayashi, Takayuki Honda

67. Cranial Distraction Osteogenesis: Case Reports
   Craig A. Vander Kolk

68. Potential Mistakes and Complications During Distraction Osteogenesis
   Alexander M. Cherkashin, Mikhail L. Samchukov

69. Distraction Osteogenesis: Overcoming the Challenges of a New Technique
   Suzanne U. Stucki-McCormick, Stephanie Drew, Ronald D. Mizrahi
