# Table of Contents

## I. Introduction to Imaging Modalities

1. Introduction to Plain Film Radiography and Fluoroscopy  
   Linda Kulzer Petrovich, MD, and E. Scott Pretorius, MD  
2. Introduction to Ultrasound, CT, and MRI  
   E. Scott Pretorius, MD  
3. Introduction to Nuclear Medicine  
   Linda Kulzer Petrovich, MD, and E. Scott Pretorius, MD  
4. Computers in Radiology  
   William W. Boonn, MD  

## II. Breast Imaging

5. Screening Mammography  
   Susan P. Weinstein, MD  
6. Diagnostic Mammography  
   Susan P. Weinstein, MD  
7. Breast Ultrasound and Breast Procedures  
   Susan P. Weinstein, MD  

## III. Cardiac and Noninvasive Vascular Imaging

9. Cardiac Imaging  
   Sridhar R Charagundla, MD, PhD, and Harold I Litt, MD, PhD  
10. CTA and MRA of the Aorta  
    Andrew J. Kapustin, MD, and Harold I. Litt, MD, PhD  
11. CTA of the Pulmonary Vasculature  
    Milan Sheth, MD, and Harold I Litt, MD, PhD  
12. CTA and MRA of the Mesenteric and Peripheral Vasculature  
    Maxim Itkin, MD, and Harold I. Litt, MD, PhD  

## IV. Gastrointestinal Tract

13. Plain Radiographs of the Abdomen  
    Stephen E. Rubesin, MD  
14. The Upper GI Tract  
    Stephen E. Rubesin, MD  
15. The Colon and Barium Enema  
    Stephen E. Rubesin, MD  
16. MR and CT of the Liver and Biliary Tract  
    Evan S. Siegelman, MD  
17. CT and MRI of the Spleen  
    E. Scott Pretorius, MD  
18. CT and MRI of the Pancreas  
    Wendy C. Hsu, MD, and E. Scott Pretorius, MD  
19. CT of the Acute Abdomen and Pelvis  
    Drew A. Torigian, MD  

## V. Genitourinary Tract

20. Intravenous Urography  
    Parvati Ramchandani, MD  
21. Genitourinary Fluoroscopic Examinations  
    Parvati Ramchandani, MD  
22. CT and MRI of the Kidney  
    E. Scott Pretorius, MD  
23. CT and MRI of the Adrenal Glands  
    E. Scott Pretorius, MD
24. Ultrasound of the Female Pelvis
Jeffrey Scott Friedenberg, MD, and Susan E. Rowling, MD
25. MRI of the Female Pelvis
Gautham Mallampati, MD
26. MRI and Ultrasound of the Male Pelvis
Lisa Jones, MD PhD, and E. Scott Pretorius, MD

VI. Interventional Radiology

27. Patient Sedation and Pain Management
Charles T. Lau, MD, and S. William Stavropoulos, MD
28. Equipment, Terms, and Techniques in Interventional Radiology
Jeffrey A. Solomon, MD, MBA, and S. William Stavropulos, MD
29. Inferior Vena Cava Filters
S. William Stavropoulos, MD, and Jeffrey A. Solomon, MD, MBA
30. Peripheral Vascular Disease
Jeffrey A. Solomon, MD, MBA, and Jeffrey I. Mondschein, MD
31. Embolization Techniques and Applications
Sara Chen, MD, and S. William Stavropoulos, MD
32. Hepatobiliary and Portal Venous Interventions
Jeffrey I. Mondschein, MD
33. Genitourinary and Gastrointestinal Interventional Radiology
Charles T. Lau, MD, and S. William Stavropoulos, MD

VII. Musculoskeletal Radiology

34. Extremity Plain Films and Trauma
Woojin Kim, MD, and Neil Roach, MD
35. Plain Film examination of Spinal Trauma
Woojin Kim, MD, and Neil Roach, MD
36. Nontraumatic Spine Plain Films and Degenerative Disease
Christopher J. Yoo, MD, and Neil Roach, MD
37. Osteoporosis
Neil Roach, MD
38. Osteoarthritis and Inflammatory Arthritis
Daniel Saurborn, MD, and Neil Roach, MD
39. Osteomyelitis
Andrew Gordon, MD, and Neil Roach, MD
40. Bone Tumors
Judy S. Blebea, MD
41. Shoulder MRI
Neil Roach, MD
42. MRI of the Elbow and Wrist
Christopher J. Yoo, MD, and Neil Roach, MD
43. MRI of the Hip
Gregory Goodworth, MD, and Neil Roach, MD
44. MRI of the Knee
Hanna M. Zafar MD, MHS, and Neil Roach, MD
45. MRI of the Foot and Ankle
Neil Roach, MD

VIII. Neuroradiology

46. Brain: Anatomy, Trauma, and Tumors
Gul Moonis, MD, and Laurie A. Loevner, MD
47. Brain: Inflammatory, Infectious, and Vascular Diseases
Gul Moonis, MD, and Laurie A. Loevner, MD
48. Advanced Imaging of the Spine
Linda J. Bagley, MD, and Laurie A. Loevner, MD
49. Head and Neck I
Mary Scanlon, MD, and Laurie A. Loevner, MD
50. Head and Neck II
Mary Scanlon, MD, and Laurie A. Loevner, MD

IX. Nuclear Radiology

51. Positron Emission Tomography
Andrew Newberg, MD
52. Bone Scans
Andrew Newberg, MD
53. VQ Scans
X. Pediatric Radiology

57. Pediatric Thoracic Radiology
   D. Andrew Mong, MD
58. Pediatric Gastrointestinal Radiology
   Kerry Bron, MD, and Avrum N. Pollock, MD, FRCPC
59. Pediatric Uroradiology
   Richard D. Bellah, MD
60. Pediatric Neuroradiology
   D. Andrew Mong, MD, and Avrum N. Pollock, MD
61. Pediatric Musculoskeletal Radiology
   D. Andrew Mong MD
62. Imaging of Child Abuse
   Andrew Mong, MD, and Avrum N. Pollock, MD

XI. Thoracic Radiology

63. Solitary and Multiple Pulmonary Nodules
   Drew A. Torigian, MD
64. Interstitial Lung Disease
   Wallace T. Miller, Jr., and Drew A. Torigian, MD
65. Mediastinal Diseases
   Drew A. Torigian, MD, and Wallace T. Miller, Jr.
66. Pleural Diseases
   Drew A. Torigian, MD, and Wallace T. Miller, Jr.
67. Tubes, Lines, and Catheters
   Drew A. Torigian, MD

XII. Ultrasonography

68. Obstetric Ultrasound: First-trimester Imaging
   Courtney Woodfield, MD, and Beverly G. Coleman, MD, FACR
69. Obstetric Ultrasound: Second-trimester Imaging
   Ross I. Silver, MD, and Beverly G. Coleman, MD, FACR
70. Vascular Ultrasound
   Denise S. White, DO, and Beverly G. Coleman, MD, FACR
71. Abdominal Ultrasound
   Keith A. Ferguson, MD, and Susan Hilton, MD

XIII. Diagnostic Radiology as a Profession

72. Training Pathways in Diagnostic Imaging
   E. Scott Pretorius, MD
73. Medicolegal Issues in Diagnostic Imaging
   Saurabh Jha, MBBS
74. Radiology Organizations
   E. Scott Pretorius, MD
