

Comprehensive Clinical Nephrology: Textbook with CD-ROM for Macintosh and Windows

Feehally, John

ISBN-13: 9780323046022

Table of Contents

Essential Renal Anatomy and Physiology

1. Renal Anatomy
2. Renal Physiology

Investigation of Renal Disease

3. Assessment of Renal Function
4. Urinalysis
5. Imaging
6. Renal Biopsy

Fluid and Electrolyte Disorders

7. Disorders of Extracellular Volume
8. Disorders of Water Metabolism
9. Disorders of Potassium Metabolism
10. Disorders of Calcium, Phosphate, and Magnesium Metabolism
11. Normal Acid-Base Balance
12. Metabolic Acidosis
13. Metabolic Alkalosis
14. Respiratory Acidosis, Respiratory Alkalosis, and Mixed Disorders

Glomerular Disease

15. Introduction to Glomerular Disease: Pathogenesis and Classification
16. Introduction to Glomerular Disease: Clinical Presentation
17. Minimal Change Disease
18. Focal and Segmental Glomerulosclerosis: Genetic and Spontaneous Causes
19. Membranous Nephropathy
20. Membranoproliferative Glomerulonephritis and Cryoglobulinemic Glomerulonephritis
21. IgA Nephropathy and Henoch-Schönlein Nephritis
22. Antiglomerular Basement Membrane Disease and Goodpasture's Syndrome
23. Renal and Systemic Vasculitis
24. Lupus Nephritis
25. Glomerular Disease Associated with Infection
26. Renal Amyloidosis and Glomerular Diseases with Monoclonal Immunoglobulin Deposition
27. Other Glomerular Disorders, Including Congenital Nephrotic Syndrome
28. Thrombotic Microangiopathies Including Hemolytic-Uremic Syndrome

Diabetic Nephropathy

29. Pathogenesis, Clinical Manifestations, and Natural History of Diabetic Nephropathy
30. Prevention and Treatment of Diabetic Nephropathy

Hypertension

31. Normal Blood Pressure Control and the Evaluation of Hypertension
32. Pathogenesis and Clinical Course of Essential Hypertension
33. Nonpharmacologic Treatment of Hypertension
34. Pharmacologic Treatment of Hypertension
35. Renovascular Hypertension
36. Endocrine Causes of Hypertension
37. Endocrine Causes of Hypertension: Aldosterone
38. Neurogenic Hypertension Including Following Stroke and with Spinal Cord Injury
39. Hypertension in African Americans

Pregnancy and Renal Disease

- 40. Renal Physiology in Normal Pregnancy
- 41. Renal Complications in the Normal Pregnancy
- 42. Pregnancy with Pre-Existing Renal Disease

Hereditary and Congenital Diseases of the Kidney

- 43. Autosomal Dominant Polycystic Kidney Disease
- 44. Other Cystic Kidney Diseases
- 45. Alport and Other Familial Glomerular Syndromes
- 46. Inherited Disorders of Sodium and Water Handling
- 47. Fanconi's Syndrome and Other Proximal Tubule Disorders
- 48. Sickle Cell Disease
- 49. Congenital Abnormalities of the Renal Tract

Urinary Tract Infection

- 50. Urinary Tract Infection in Adults
- 51. Tuberculosis of the Urinary Tract
- 52. Fungal Infection of the Urinary Tract
- 53. The Kidney in Schistosomiasis

Urologic Disorders

- 54. Nephrolithiasis and Nephrocalcinosis
- 55. Urinary Tract Obstruction
- 56. Urologic Issues for the Nephrologist

Tubulointerstitial and Vascular Disease

- 57. Acute Interstitial Nephritis
- 58. Vesicoureteral Reflux and Reflux Nephropathy
- 59. Chronic Interstitial Nephropathy
- 60. Myeloma and the Kidney
- 61. Atheromatous and Thromboembolic Renovascular Disease

Geriatric Nephrology

- 62. Geriatric Nephrology

Acute Renal Failure

- 63. Pathophysiology and Etiology of Acute Renal Failure
- 64. Epidemiology, Prevention, and Clinical Evaluation of Acute Renal Failure
- 65. Management of Acute Renal Failure
- 66. ICU Nephrology
- 67. Hepatorenal Syndrome

Chronic Renal Failure and the Uremic Syndrome

- 68. Epidemiology and Pathophysiology of Chronic Kidney Disease: Natural History, Risk Factors, and Management
- 69. Retarding Progression of Kidney Disease
- 70. Clinical Evaluation and Management of Chronic Kidney Disease
- 71. Cardiovascular Disease in Chronic Kidney Disease
- 72. Anemia
- 73. Other Blood and Immune Disorders
- 74. Bone and Mineral Metabolism in Chronic Renal Failure
- 75. B2-Microglobulin-Derived Amyloid
- 76. Neurologic Complications in Chronic Kidney Disease
- 77. Gastroenterology and Nutrition in Chronic Kidney Disease
- 78. Dermatologic Manifestations of Chronic Kidney Disease
- 79. Acquired Cystic Kidney Disease and Malignancies in Chronic Kidney Disease

Dialysis

- 80. Approach to Renal Replacement Therapy
- 81. Vascular Access for Hemodialysis
- 82. Interventional Nephrology
- 83. Hemodialysis: Technology, Adequacy, and Outcomes
- 84. Acute Complications of Hemodialysis
- 85. Peritoneal Dialysis: Principles, Techniques, and Adequacy

- 86. Complications of Peritoneal Dialysis
- 87. Acute Renal Replacement Therapy in the ICU
- 88. Plasma Exchange

Transplantation

- 89. Immunologic Principles of Kidney Transplantation
- 90. Immunosuppressive Agents Used in Transplantation
- 91. Evaluation and Perioperative Management of the Kidney Transplant Recipient
- 92. Kidney Transplant Surgery
- 93. Prophylaxis and Treatment of Kidney Transplant Rejection
- 94. Medical Management of the Kidney Transplant Recipient
- 95. Chronic Allograft Nephropathy
- 96. Recurrent Disease in Kidney Transplantation
- 97. Outcomes of Kidney Transplantation
- 98. Pancreas and Islet Transplantation
- 99. Renal Disease in Liver, Cardiac, Lung, and Bone Transplantation

Drugs and the Kidney

- 100. Poisoning and Drug Overdose
- 101. Principles of Drug Dosing and Prescribing in Renal Failure
