Table of Contents

SECTION I: Immunology
- Chapter 1 Components of the Immune System
- Chapter 2 Role of T Cells in Immune Responses
- Chapter 3 Immunoglobulins and Their Production by B Cells
- Chapter 4 Normal and Abnormal Immune Responses
- Chapter 5 Laboratory Tests for Diagnosis

SECTION II: Bacteriology
- Chapter 6 Bacterial Structure
- Chapter 7 Bacterial Growth, Genetics, and Virulence
- Chapter 8 Diagnosis, Therapy, and Prevention of Bacterial Diseases
- Chapter 9 Gram-Positive Cocci
- Chapter 10 Gram-Positive Toxigenic Rods
- Chapter 11 Enterobacteriaceae
- Chapter 12 Gram-Negative Cocci and Cocccobacilli
- Chapter 13 Gram-Negative, Oxidase-Positive Motile Rods
- Chapter 14 Mycoplasmas, Filamentous Bacteria, and Bacteroides
- Chapter 15 Spirochetes
- Chapter 16 Mycobacteria
- Chapter 17 Chlamydiae and Zoonotic Intracellular Bacteria

SECTION III: Virology
- Chapter 18 Viral Structure, Classification, and Replication
- Chapter 19 Viral Pathogenesis
- Chapter 20 Diagnosis, Therapy, and Prevention of Viral Diseases
- Chapter 21 Nonenveloped (Naked) DNA Viruses
- Chapter 22 Enveloped DNA Viruses
- Chapter 23 Nonenveloped (Naked) RNA Viruses
- Chapter 24 Large Enveloped RNA Viruses
- Chapter 25 Small and Midsized Enveloped RNA Viruses
- Chapter 26 Retroviruses
- Chapter 27 Hepatitis Viruses

SECTION IV: Mycology, Parasitology, and Infectious Diseases
- Chapter 28 Fungi
