Textbook of Palliative Medicine

Bruera, Eduardo MD

Table of Contents

Pt. 1. The development of palliative medicine
The development of palliative medicine in the UK and Ireland
    David Clark
The development of palliative medicine in Europe
    Franco de Conno, Heidi Blumhuber, Javier Rocafort
The development of palliative care in Canada
    Neil MacDonald
The development of palliative medicine in the USA
    True Ryndes, Charles F. von Gunten
The development of palliative medicine in Latin America
    Roberto Wenk
The development of palliative medicine in Africa
    Anne Merriman
The development of palliative medicine in Australia/New Zealand
    J. Norelle Lickiss
The development of palliative medicine in Asia
    Rosalie Shaw
Palliative care versus palliative medicine
    Eduardo Bruera, Ellen A. Pace
Palliative care as a public health issue
    Joseph F. O'Neill, R. Cameron Wolf
The future of palliative medicine
    Charles F. von Gunten, Irene J. Higginson

Pt. 2. Bioethics
Principles of bioethics in palliative care
    Paulina Taboada
Ethics in the practice of palliative care
    James A. Tulsky
Dignity in palliative care
    Susan E. McClement, Harvey M. Chochinov

Pt. 3. The problems and challenges of global reach
Transcultural palliative care
    Carl Johan Furst, Solvig Ekblad
Palliative care: global situation and initiatives
    Liliana De Lima

Pt. 4. Education
Undergraduate education
    Doreen Oneschuk
Graduate education
    Ilora G. Finlay, Simon I. R. Noble
Changing the norms of palliative care practice by changing the norms of education
    Linda Emanuel

Pt. 5. Research and audit
Challenges of research in palliative medicine
    Irene J. Higginson
The patient population: who are the subjects in palliative medicine research?
    Jennifer Kapo, David Casarett
Study designs in palliative medicine
    Massimo Costantini
Outcomes measurement in palliative care research
    Joan M. Teno
Ethics in palliative care research
    Jonathan Koffman, Fliss Murtagh
Practical tips for successful research in palliative care
    Eduardo Bruera, Ellen A. Pace
Audit and quality improvement in palliative care research
   Hsien-Yeang Seow, Sarah Myers, Joanne Lynn
Pt. 6. Organization and governance
Standards of care
   Frank D. Ferris
The adoption of palliative care. The engineering of organizational change
   Winford E. Holland
Cost avoidance and other financial outcomes for palliative care programs
   J. Brian Cassel, Thomas J. Smith
Organization and support of the interdisciplinary team
   Karen Macmillan, Bette Emery, Louise Kashuba
Population-based needs assessment for patient and family care
   Irene J. Higginson, Charles F. von Gunten
The palliative care consult team
   Alexie Cintron, Diane E. Meier
Models of palliative care delivery
   Badi El Osta, Eduardo Bruera
Palliative home care
   Roberto Wenk
Day hospitals
   Bruno Gagnon
Inpatient hospices
   Jeremy Keen
The palliative care unit
   Sharon Watanabe, Karen Macmillan
Combined care models
   Frederick J. Meyers, Anthony F. Jerant
Pt. 7. Overview of assessment
Multidimensional assessment in palliative care
   Ernesto Vignaroli, Eduardo Bruera
Tools for pain and symptom assessment in palliative care
   Victor T. Chang
Quality of life assessment in palliative care
   S. Robin Cohen
Pt. 8. Pain
Pathophysiology of chronic pain
   Sebastiano Mercadante
Causes and mechanisms of pain in palliative care patients
   Suresh K. Reddy
Opioid analgesics
   Per Sjogren, Jorgen Eriksen
Assessment and management of opioid side effects
   Catherine Sweeney, Cathryn Bogan
Adjuvant analgesic drugs
   David Lussier, Russell K. Portenoy
Alternative routes for systemic opioid delivery
   Carla Ripamonti, Mauro Bianchi
Epidural and intrathecal analgesia and neurosurgical techniques in the palliative setting
   Phillip C. Phan, Madhuri Are, Samuel J. Hassenbusch III, Allen W. Burton
Topical administration of analgesics
   Andreas Kopf, Steffen Schmidt, Christoph Stein
Pain and opioids in children
   Richard D. W. Hain, Mary Devins, Angela Miser
Pain in older people
   Wendy M. Stein
Neuropathic pain
   Marco Lacerenza, Fabio Formaglio, Lia Teloni, Paolo Marchettini
Bone pain
   Yoko Tarumi
Episodic pain
   Shirley H. Bush
Somatization and pain expression
   Marilu P. Berry, Diane M. Novy
Pain in patients with alcohol and drug dependence
   Steven D. Passik, Kenneth L. Kirsh
Pt. 9. Gastrointestinal systems
Pathophysiology of cachexia/anorexia syndrome
   Egidio Del Fabbro, Eduardo Bruera
Overview of the management of the anorexia/weight loss syndrome
  Cara Bondly, Aminah Jatoi

Nausea/vomiting
  Sebastiano Mercadante

Constipation and diarrhea
  Eduardo Bruera, Nada Fadul

Malignant ascites
  Jeremy Keen

Jaundice
  Nathan I. Chemy

Bowel obstruction
  Carla Ripamonti

Endoscopic treatment of gastrointestinal symptoms
  Pasquale Spinelli

Pt. 10. Fatigue

Pathophysiology of fatigue
  Claudia Gamondi, Hans Neuenschwander

Assessment of fatigue in palliative care
  Jon H. Loge

Exercise, physical function, and fatigue in palliative care
  Kerry S. Courneya, Jeffrey K. H. Vallance, Margaret L. McNeely, Carolyn J. Peddle

Treatment of fatigue in palliative care
  Jeanette A. Boohene, Eduardo Bruera

Pt. 11. Respiratory systems

Dyspnea
  Jay R. Thomas, Charles F. von Gunten

Other respiratory symptoms (cough, hiccup, and secretions)
  Tabitha Thomas, Rosemary Wade, Sara Booth

Pt. 12. Neuropsychiatric

Depression/anxiety
  Michael J. Fisch

Confusion/delirium
  William Breitbart, Miriam Friedlander

Sleeping disorders
  Fritz Stiefel, Daniele Stagno

Counseling in palliative care
  Kimberley Miller, David W. Kissane

Hope in end-of-life care
  Cheryl L. Nekolaichuk

Pt. 13. Assessment and management of other problems

Dehydration and rehydration
  Robin L. Fainsinger

Fever, sweats, and hot flashes
  Shalini Dalal, Donna S. Zhukovsky

Pruritus
  Victoria Lidstone, Andrew Thorns

Infections
  Paula S. Province, Rudolph M. Navari

Pressure ulcers/wounds
  Kathryn G. Froiland

Mouth care
  Flavio Fusco

Fistulas
  Fabio Fulfaro, Carla Ripamonti

Lymphedema
  Ying Guo, Benedict Konzen

Pt. 14. Emergencies in palliative medicine

Hypercalcemia
  D. Scott Ernst, Gary Wolch

Hemorrhage
  Sriram Yennurajalingam, Eduardo Bruera

Spinal cord compression
  Nora A. Janjan, Anita Mahajan, Eric L. Chang

Superior vena cava syndrome
  Maria Luisa del Valle, Carlos Centeno

Seizures
  Fabia Simonetti, Augusto T. Caraceni

Acute pain syndromes
Pt. 15. Specific conditions and situations

Cancer: radiotherapy
   Elizabeth A. Barnes, Edward Chow

Cancer: chemotherapy
   Xipeng Wang, John J. Kavanagh

Physical medicine and rehabilitation
   Benedict Konzen, Ki Shin

Integrative and alternative medicine and palliative medicine
   Nancy C. Russell, Lorenzo Cohen

Human immunodeficiency virus and palliative care
   Robert E. Hirschlick, Jamie H. Von Roenn

Neurological diseases
   Rachel Burman

End-stage congestive heart failure
   Edward R. Duncan, Ajay M. Shah, Mark T. Kearney

Palliative care for children
   Finella Craig, Ann Goldman

Chronic obstructive pulmonary disease
   J. Randall Curtis, Graeme Rocker

Other infectious diseases: malaria, rabies, tuberculosis
   Sue Marsden

Practical aspects of palliative care delivery in the developing world
   Roberto Wenk, Liliana De Lima

Prognostic indicators of survival
   Marco Maltoni, Augusto T. Caraceni, Caterina Modonesi

Palliative sedation
   Nathan I. Cherny

Pt. 16. Interdisciplinary issues

Physical and occupational therapy in palliative care
   Pamela R. Massey, Eileen S. Donovan

Staff stress and burnout in palliative care
   Mary L. S. Vachon

Communication in palliative care
   Josephine M. Clayton, Martin H. N. Tattersall

Spiritual care
   Susan Strang, Peter Strang

Family care
   Linda J. Kristjanson

A transcultural perspective of advance directives in palliative care
   Donna S. Zhukovsky

Bereavement
   Victoria H. Raveis

Children of palliative care patients
   Estela Beale
