Endocannabinoids: The Brain and Body's Marijuana and Beyond

Onaivi, Emmanuel S.

Table of Contents

Historical Aspects and Chemistry
   Look Back in Ananda’s Years of Research on Cannabinoids: R Mechoulam
   The Relationship between Endocannabinoid Conformation and Endocannabinoid Interaction at the Cannabinoid Receptors: Patricia H Reggio

Cannabinoid Receptor Genetics and Signal Transduction
   Endocannabinoid Receptor Genetics and Marijuana Use: Emmanuel S Onaivi, Hiroki Ishiguro, Ping Wu Zhang, Zhicheng Lin, Babatunde E Akinshola, Claire M Leonard, Sanika S Chinwa, Jianping Gong and George R Uhl
   Endocannabinoids and Intracellular Signaling: Sean D McAllister and Mary E Abood
   Endocannabinoids as Retrograde Messengers in Synaptic Transmission: Saori Oka, Yoshio Ishima, Keizo Waku, and Takayuki Sugihara
   Non-CB1, Non-CB2 Receptors for Endocannabinoids: Vincenzo Di Marzo and Luciano De Petrocellis

Biochemistry of the Endocannabinoid System
   Occurrence, Biosynthesis, and Metabolism of Endocannabinoids: Takayuki Sugihara, Saori Oka, Shinobu Ikeda, and Keizo Waku
   Endocannabinoids and Eicosanoids: All in the Family: Sumner Burstein

Endocannabinoids in CNS Physiology
   Synthetic Marijuana: Endocannabinoid Modulation of Synaptic Transmission and Implications for the Regulation of Synaptic Plasticity: Alexander F Hoffman and Carl R Lupica
   Cannabinoids and the Central Serotonergic System: Marisela Morales
   Endocannabinoids and Dopamine-Related Functions in the CNS: Javier Fernandez-Ruiz, Rosario de Miguel, Mariluz Hernández, Manuel Cebeira, and Jose A Ramos
   Pharmacology of the Oxidative Metabolites of Endocannabinoids: Ruth A Ross
   Behavioral Effects of Endocannabinoids: Marie-Hélène Thiébot, Frédérique Chaperon, Ester Fride, and Emmanuel S Onaivi

Endocannabinoids in CNS Pathology
   Neuroprotection: Glutamate and Endocannabinoids: Harald S Hansen, Gitte Petersen, and Henrik H Hansen
   Neuropsychiatry: Schizophrenia, Depression, and Anxiety: Ester Fride and Ethan Russo
   The Role of Endocannabinoids in the Development, Progression, and Treatment of Neurodegenerative Diseases: Michelle Glass

Endocannabinoids in Peripheral Organ Systems
   Endocannabinoids and Gastrointestinal Function: Nissar A Darmani
   Endocannabinoids and the Cardiovascular System: Michael D Randall
   Endocannabinoids in Inflammation and Immune Response: Evgeny V Berdyshhev
   Involvement of the Endocannabinoid System in Cancer: Mauro Maccarrone
   Endocannabinoids and Endocrine Function: Laura L Murphy
   Endocannabinoids in Fertilization, Pregnancy, and Development: Herbert Schuel and Lani J Burkman

Endocannabinoid Phylogenetics
   Distribution of Endocannabinoids and Their Receptors and Enzymes on the Tree of Life
   Endocannabinoid-Based Molecules as Potential Therapeutic Drugs: Alessia Ligresti and Vincenzo Di Marzo

Index
