

# Calculations for Pharmaceutical Practice

Winfield, Arthur PhD

ISBN-13: 9780443100192

## Table of Contents

- Chapter 1 Introduction to calculations
- Chapter 2 Quantities and units
- Chapter 3 Expressions of concentration
- Chapter 4 Drugs in different forms
- Chapter 5 Density and displacement volume
- Chapter 6 Solubility
- Chapter 7 Master formulae
- Chapter 8 Changing concentration
- Chapter 9 Trituration
- Chapter 10 Suppositories
- Chapter 11 Doses calculations
- Chapter 12 Paediatric doses
- Chapter 13 Reconstitution of medicines
- Chapter 14 Preparation of injections
- Chapter 15 Other practice-related questions
- Chapter 16 Basic statistics
- Chapter 17 Introductory pharmacokinetics
- Chapter 18 Sample papers
- Chapter 19 Answers
