Table of Contents

Managing the Laboratory
  Marilyn Gamble, Iain Banks, John D. Bancroft
Safety in the Laboratory
  Richard W. Dapson
Light Microscopy
  John D. Bancroft, Alton D. Floyd
Fixation of Tissues
  William E. Grizzle, Jerry L. Fredenburgh, Russell B. Myers
The Gross Room/Surgical Cutup
  Paul E. Billings, William E. Grizzle
Tissue Processing
  Lena T. Spencer, John D. Bancroft
Microtomy: Paraffin and Frozen
  Lena T. Spencer, John D. Bancroft
How do Histological Stains Work?
  Richard W. Horobin
The Hematoxylin and Eosin
  Marilyn Gamble
Connective Tissues and Stains
  M. Lamar Jones, John D. Bancroft, Marilyn Gamble
Carbohydrates
  Russell B. Myers, Jerry L. Fredenburgh, William E. Grizzle
Lipids
  M. Lamar Jones
Proteins and Nucleic Acids
  Jerry L. Fredenburgh, John D. Bancroft, William E. Grizzle, Russell B. Myers
Pigments and Minerals
  Charles J. Churukian
Amyloid
  Geoffrey H. Vowles
The Dispersed Neuroendocrine System, Cytoplasmic Granules, and other Organelles
  William E. Grizzle, John D. Bancroft
Microorganisms
  Jeanine H. Bartlett
Bone
  Gayle M. Callis
Techniques in Neuropathology
  Scott L. Nestor
Enzyme Histochemistry and its Diagnostic Applications
  Scott L. Nestor, John D. Bancroft
Immunohistochemical Techniques
  Peter Jackson, David Blythe
Immunohistochemistry Quality Control
  Christa L. Hladik, Charles L. White III
Immunohistochemistry Applications in Pathology
  Charles L. White III
Immunofluorescent Techniques
  Christa L. Hladik, Charles L. White
Tissue Microarray
  Wanda Grace-Jones
Molecular Pathology - In Situ Hybridization
  Diane L. Sterchi
Genetic Testing: Utilization of Fluorescent In Situ Hybridization (FISH)
  Caroline Astbury
Laser Microdissection
  Diane L. Sterchi
Plastic Embedding for Light Microscopy
