Table of Contents

Pt. I. Fundamentals and Techniques
Principles in NMR Spectroscopy
  B. Diehl
Quantitative NMR in the Solution State NMR
  F. Malz
qNMR in Solid State
  I. Wawer
Microcoil Nuclear Magnetic Resonance Spectroscopy
  A. G. Webb
qNMR Spectroscopy in Drug Analysis - A General View
  U. Holzgrabe

Pt. II. General Applications
Investigation of Multi-Component Drugs by NMR Spectroscopy
  T. Beyer, U. Holzgrabe
NMR Applications for Polymer Characterisation
  B. Diehl
NMR Spectroscopy of Natural Substances
  B. Diehl
Solid-State Measurements of Drugs and Drug Formulations
  I. Wawer
Metabolic Profiling
  K. A. Kaiser, C. E. Merrywell, F. Fang, C. K. Larive
DOSY NMR for Drug Analysis

Pt. III. Special Applications
NMR-Based Mixture Analysis on the Example of Fruit Juice Quality Control Using Statistics and Quantification
  M. Spraul, E. Humpfer, H. Schafer, B. Schutz, M. Mortter, P. Rinke
NMR Assays for Carbohydrate-Based Vaccines
  C. Jones, N. Ravenscroft
Fluorine-19 or Phosphorus-31 NMR Spectroscopy: A Powerful Technique for Biofluid Metabolic Studies and Pharmaceutical Formulation Analysis of Fluorinated or Phosphorylated Drugs
  R. Martino, V. Gilard, M. Malet-Martino
Quantitative 2D NMR Analysis of Glycosaminoglycans
  G. Toni, M. Guerrini
The Use of Proton NMR as an Alternative for the Amino Acid Analysis as Identity Test for Peptides
  E. Kellenbach, K. Sander, P. L. A. Overbeeke
Assessment of the Inhibitory Potency of Antibiotics by MRI
  C. Faber
Hypernation and Concatenation: Multiple On-Line Spectroscopic Analysis for Drug and Natural Product Characterisation
  I. D. Wilson
Quantitative High-Resolution Online NMR Spectroscopy in Pharmaceutical Reaction and Process Monitoring
  M. Maiwald, O. Steinhof, C. Sleigh, M. Bernstein, H. Hasse

Index
