Serotonin-Dopamine Interaction: Experimental Evidence and Therapeutic Relevance

Di Giovanni, Giuseppe

Table of Contents

1. SEROTONIN-DOPAMINE INTERACTIONS IN THE CENTRAL NERVOUS SYSTEM
   1. Serotonin-Dopamine Interaction: an overview.
   2. Serotonin control of central dopaminergic function: focus on in vivo microdialysis studies.

2. SEROTONIN-DOPAMINE INTERACTIONS IN SCHIZOPHRENIA
   6. Alterations of dopamine and serotonin transmission in schizophrenia.
   7. Serotonin and dopamine interactions in psychosis prevention.
   8. Role of serotonin and dopamine receptor binding in antipsychotic efficacy.
   9. In vivo actions of atypical antipsychotic drug on serotonergic and dopaminergic systems.
  11. Serotonin-dopamine interactions: implications for the design of novel therapeutic agents for psychiatric disorders.

3. SEROTONIN-DOPAMINE INTERACTIONS IN DEPRESSION
   12. The dorsal raphe nucleus and serotonin â€”implications for neuroplasticity linked to major depression and Alzheimerâ€™s disease.
   13. Dynamics of the dopaminergic system as a key component to the understanding of depression.
   15. The role of dopamine and serotonin in suicidal behaviour and aggression.

4. SEROTONIN-DOPAMINE INTERACTIONS IN DRUG ADDICTION
   17. Pharmacological inhibition of dopamine- and serotonin activity blocks spontaneous and cocaine-activated behaviour.
   18. Serotonin receptors as potential targets for modulation of nicotine use and dependence.
   19. Dopamine/Serotonin releasers as medications for stimulant addictions.

5. SEROTONIN-DOPAMINE INTERACTIONS IN MOTOR DISORDERS
   21. Serotonin modulation of the basal ganglia circuitry: therapeutic implication for Parkinsonâ€™s disease and other motor disorders.
   22. Serotonin-Dopamine interaction in the induction and maintenance of LDOPA-induced dyskinesias.
   23. Parkinsonâ€™s disease â€”opportunities for novel therapeutics to reduce the problems of levodopa therapy.

6. SEROTONIN-DOPAMINE INTERACTIONS IN ATTENTIONAL PROCESSES, LEARNING AND MEMORY
   25. Serotonergic and dopaminergic modulation of attentional processes.
   26. Dopamine-serotonin interactions in attention-deficit/hyperactivity disorder (ADHD).
   27. Serotonin/dopamine interaction in learning.
   29. The roles of dopamine and serotonin, and of their receptors, in regulating sleep and waking.
