### Table of Contents

**Pt. I.  Biologic Basis of Disease**  
The Cell: Structure and Function  
Mark A. Carlson  
Growth Factors and Cytokines  
Gloria A. Chin, Gregory Schultz, Lyle L. Moldawer  
The Normal Wound Healing Process  
W. Thomas Lawrence  
Abnormal Wound Healing  
Louis C. Argenta, Michael J. Morykwas  
Fetal Wound Healing  
Ziv M. Peled, Tiffany K. Danton, Michael T. Longaker  
The Fundamentals of Molecular Genetics  
Timothy D. Howard, Vandana Shashi  
Immune System and Transplant Immunology  
George Tsouflias, Bridget L. Colvin, Nonko Murase, Angus W. Thomson  
Principles and Practice of Transplantation  
R. Randal Bollinger, Mariano S. Dy-Liacco  

**Pt. II.  Basic Body Tissues: Structure and Function**  
Skin and Adnexal Structures  
Anthony J. DeFranzo, Jr.  
Bone and Cartilage  
Lawrence X. Webb, Jeffrey S. Shilt  
Skeletal Muscle Physiology: Injury and Repair  
Osvaldo Delbono  
Peripheral Nerve: Anatomy, Injury, and Repair  
Linda Dvali, Susan E. Mackinnon  

**Pt. III.  Applied Embryology**  
Applied Neuroembryology  
Alphonse R. Burdi  
Applied Embryology of the Head and Neck  
Lisa R. David  
Applied Cardiac Embryology  
Michael H. Hines  
Applied Urinary and Reproductive Embryology  
John M. Park  
Applied Embryology of the Extremities  
Loren J. Borud, Joseph Upton  

**Pt. IV.  Applied Physiology**  
Fundamentals of Neurophysiology and Neurodysfunction  
Rebekah C. Austin, John A. Wilson  
Physiology of Normal and Abnormal Respiration  
Mark Knower, David L. Bowton  
Renal Physiology and Dysfunction  
Jack W. Strandhoy  
Reproductive Physiology and Dysfunction  
Peter A. Argenta  
Cardiac Physiology and Dysfunction  
Jakob Vinten-Johansen, Lawrence J. Mulligan, Jason M. Budde, Cullen D. Morris  
Physiology of Arterial Venous and Lymphatic Systems  
Sheila M. Coogan, Christopher K. Zarins  
Gastrointestinal and Hepatic Physiology and Dysfunction  
Gordon L. Kauffman, Jr.  
Endocrine Physiology and Dysfunction  
Maria D. Allo  

**Pt. V.  Special Patient Considerations**  
The Pregnant Surgical Patient  
Bonnie J. Dattel, Marya Zlatnik
The Elderly Surgical Patient
Lisa S. Dresner, Michael E. Zenilman

The Pediatric Surgical Patient
Robert W. Letton, Jr., Walter J. Chwals

The Morbidly Obese Surgical Patient
Walter J. Pories, Jayme E. Locke

The Diabetic Surgical Patient
Christopher P. Johnson, Irene O'Shaughnessy

The Immunologically Compromised and Transplant Surgery Patient
Darrell A. Campbell, Jr., Juan D. Arenas

Pt. VI. Injury
Metabolic Response to Trauma
Marcus Spies, David N. Herndon

Thermal Injury

Physicochemical Injuries
Mark A. Grevious, Raphael C. Lee

Pt. VII. The Perioperative Period
Perioperative Fever and Hypothermia
Margaret F. Brock, Thomas E. Nelson

Nutrition
Joshua M. V. Mammen, Jasef E. Fischer

Hematology and Hemostasis
Christopher P. Michetti, Kirsten Huber, Samir M. Fakhry

Transfusion and Replacement Therapy
Todd J. Lucas, A. Gerson Greenburg

Electrolytes and Electrolyte Dysfunction
Mark A. Malangoni, Charles J. Yowler

Thromboembolic Disease
James O. Menzoian, Joseph D. Raffetto

Pt. VIII. Infection
Bacterial Infection
Philip S. Barie, Soumitra R. Eachempati

Fungal Infection
Amar Safdar, Donald Armstrong

Viral Infections
Donald E. Fry

Pt. IX. Anesthesia
General Anesthesia
Randy W. Calicott, Deborah M. Whelan

Sedation and Regional Anesthesia
Robert S. Weller

Pt. X. Oncology
Principles of Tumor Biology
Herbert Chen, John E. Niederhuber

Cancer Therapy Alternatives
Suzanne E. Patton, Frank M. Tarti

Radiation Therapy and Radiation Injury
T. William Huang, Suzanne M. Russa, Volker W. Stieber, Castas Kaumenis, Allan F. deGuzman, Edward G. Shaw

Pt. XI. System Impairment and Failure
Central Nervous System Impairment, Seizure, Coma, and Death
Alex B. Valadka

Gastrointestinal Failure and Liver Failure
Robert A. Cowes, Frederic E. Eckhauser

Respiratory Insufficiency, Failure, and Support
Ravi Veeramasuneni, Harry L. Anderson III

Myocardial Insufficiency, Failure, and Support
D. Glenn Pennington, William H. Messerschmidt, Marcus G. Williams

Perioperative Renal Dysfunction and Failure: Diagnosis and Management
Michael J. Casey, Anthony J. Bleyer

Recognition and Treatment of Perioperative Arrhythmias
Warren Holshouser, John Hoyle, Matthew Sackett, David M. Fitzgerald

Acute Cardiopulmonary Resuscitation
Jeffrey S. Kelly, Peter C. Brath

Alternatives in Physiologic Monitoring
Michael C. Chang

Shock: Differential Diagnosis and Management
Michael C. Chang
