Respiratory Care: Principles and Practice

Hess, D

Table of Contents

Contents

Preface

Contributing Authors

Reviewers

Section One Respiratory Assessment

Chapter 1 History and Physical Examination
Chapter 2 Gas Exchange
Chapter 3 Acid-Base Balance
Chapter 4 Arterial Blood Gas Analysis and Sampling
Chapter 5 Respiratory Monitoring
Chapter 6 Hemodynamic Monitoring
Chapter 7 Cardiac Assessment
Chapter 8 Blood Chemistries and Hematology
Chapter 9 Imaging the Thorax
Chapter 10 Pulmonary Function Testing
Chapter 11 Interventional Pulmonary Procedures
Chapter 12 Polysomnography
Chapter 13 Nutrition Assessment and Support
Chapter 14 Cardiopulmonary Exercise Assessment

Section Two Respiratory Therapeutics

Chapter 15 Therapeutic Gases: Manufacture, Storage, and Delivery
Chapter 16 Therapeutic Gases: Management and Administration
Chapter 17 Humidity and Aerosol Therapy
Chapter 18 Sputum Collection, Airway Clearance, and Lung Expansion Therapy
Chapter 19 Airway Management
Chapter 20 Cardiopulmonary Resuscitation
Chapter 21 Mechanical Ventilators: Classification and Principles of Operation
Chapter 22 Mechanical Ventilation
Chapter 23 Noninvasive Ventilation and Continuous Positive Airway Pressure
Chapter 24 Neonatal and Pediatric Respiratory Care
Chapter 25 Pulmonary Rehabilitation
Chapter 26 Home Respiratory Care
Chapter 27 Disaster Management
Chapter 28 Respiratory Care of the Elderly
Chapter 29 Medical Information Management and Patient Safety

Section Three Respiratory Diseases

Chapter 30 Principles of Disease Management
Chapter 31 Patient Education
Chapter 32 Decision Making and the Role of Respiratory Therapists as Consultants
Chapter 33 Infection Control Principles
Chapter 34 Asthma
Chapter 35 Chronic Obstructive Pulmonary Disease
Chapter 36 Interstitial Lung Disease
Chapter 37 Pulmonary Vascular Disease
Chapter 38 Pneumonia
Chapter 39 Cystic Fibrosis
Chapter 40 Acute Lung Injury and the Acute Respiratory Distress Syndrome
Chapter 41 Postoperative Respiratory Care
Chapter 42 Cardiac Failure
Chapter 43 Trauma
