### Table of Contents

List of contributors.

Foreword (*Ray C. Williams*).

Introduction (*Stuart J. Froum*).

1 **Implant complications: scope of the problem** (*Stuart J. Froum*).
   - Introduction.
   - Etiology.
   - Prevention and treatment.
   - Acknowledgment.
   - References.

2 **Implant complications associated with systemic disorders and medications** (*Louis F. Rose and Brian L. Mealey*).
   - Introduction.
   - Etiology.
   - Prevention.
   - Treatment.
   - Take-home hints.
   - References.

3 **Complications associated with implant etiology, prevention, and treatment** (*Nicolas Elian, Brian Ehrlich, and Geon*).
   - Diagnosis and treatment.
   - Prevention of complications proper planning.
   - Avoiding implant.
   - Take-home hints.
   - References.

4 **Implant complications associated with two- and three-dimensional diagnostic imaging technologies** (*Scott D. Ganz*).
   - Introduction.
   - Case 1: Complications due to scanographic templates.
   - Case 2: Long-term complications due to nerve perforation.
   - Case 3: Sinus augmentation complications diagnosed by three-dimensional imaging.
   - Case 4: Complications in the mandibular symphysis related to diagnostic imagery.
   - Conclusions.
   - Take-home hints.
   - References.

5 **Implant fractures: etiology, prevention, and treatment** (*Steven E. Eckert and Thomas J. Salinas*).

Introduction.
Etiology and risk factors.
Treatment.
Clinical recommendations for prevention of implant failures.
Take-home hints.
References.

7 Peri-implantitis: etiology, pathogenesis, prevention, and therapy (Niklaus P. Lang and Maurizio S. Tonetti).

Etiology: microbiologic aspects.
Diagnostic aspects.
Prophylactic procedures.
Therapeutic strategies.
Conclusions and clinical implications.
Take-home hints.
References.

8 Esthetic complications due to implant malpositions: etiology, prevention, and treatment (Stephen T. Chen and Daniel Buser).

Introduction.
Esthetic complications due to malpositions.
Prevention of implant malposition.
Treatment of esthetic complications due to implant malposition.
Conclusions.
Take-home hints.
References.

9 Prosthodontic complications related to non-optimal dental implant placement (John S. Cavallaro Greenstein).

Introduction.
Three-dimensional determinants for correct implant placement.
Positional issues.
Angulation issues.
Apico-occlusal issues (sink depth).
10 Prosthetic-related dental implant complications: etiology, prevention, and treatment (Charles J. Goodacre and Mathew T. Kattadiyil).

Introduction.
Etiology and timing of complications and failure.
Mechanical complications.
Phonetic complications.
Esthetic complications.
Biologic complications attributable to the prosthesis.
Conclusions.
Take-home hints.
References.

11 Complications associated with single-implant esthetics: prevalence, etiology, prevention, and treatment (Dario Adolfi and Oswaldo Scopin de Andrade).

Introduction.
Prevalence of complications.
Etiology of complications related to single implants.
Prevention and treatment of complications.
Prevention of complications.
Prevention of single-implant complications.
Conclusions.
Take-home hints.
Acknowledgments.
References.

12 Esthetic complications with adjacent implant restorations (Dennis P. Tarnow, Sang-Choon Cho, and Stuart J. Froum).

Complications.
Etiology.
Prevention.
Treatment.
Conclusions.
Take-home hints.
References.

13 Complications of autogenous bone (Craig M. Misch).

Introduction.
Donor sites.
Recipient site early healing complications.
Recipient site complications: late healing complications.
Patient disease.
Take-home hints.

References.

14 Complications guided bone regeneration (Isabella Rocchietta, and Massimo Simion).

Introduction.

Literature review.

Prevention of complications: surgical technique.

Clinical management of guided bone regeneration complications.

Conclusion.

Take-home hints.

References.

15 Avoiding complications for alveolar distraction osteogenesis and osteoperiosteal flaps (Ole T. Jensen).

Introduction.

Alveolar distraction osteogenesis.

Major orthognathic distraction procedures.

Take-home hints.

References.

16 Complications in lateral window sinus elevation surgery (Stephen S. Wallace).

Introduction.

Intraoperative complications.

Postoperative complications.

Conclusion.

References.

17 Complications with the bone-added osteotome sinus floor elevation: etiology, prevention, and treatment (Paul S. Rosen).

Incidence.

Etiology.

Prevention.

Management of complications.

Take-home hints.

Acknowledgment.

References.

18 Implant complications related to immediate implant placement into extraction sites (Barry D. Wagenberg and Stuart J. Froum).

Introduction.

Etiology and prevention.

Treatment of complications.

Take-home hints.

References.

19 Complications flapless surgery (Thomas G. Wilson, Jr).
Introduction.
Definition of flapless surgery.
Goals of therapy.
Etiology of complications.
Prevention of complications.
Treatment of complications.
Summary.
Take-home hints.
Potential conflicts of interest.
References.

20 Complications related to immediately loaded dental implants (Jeffrey Ganeles and David Grossberg).
Introduction.
Failure to achieve osseointegration: etiology.
Surgical complications related to immediate loading.
Esthetic complications.
Implant malposition.
Restorative complications.
Guided surgery and prefabricated restorations.
Summary.
Take-home hints.
References.

21 Prosthodontic treatment of the malpositioned implant and implant occlusal complications (Thomas D. Taylor).
Introduction.
Scope and frequency of problems.
Etiology.
Prevention.
Treatment.
Etiology of occlusal complications.
Prevention of occlusal complications.
Conclusion.
Take-home hints.
Acknowledgment.
References.

22 A potpourri of surgical complications associated dental implant placement: 35 case reports – common problems, avoidance, and management (Gary Greenstein and John S. Cavallaro).
Introduction.
Diagnosis and treatment planning.
Involved tissues: soft tissue, bone, and nerves.
Implant placement.
23 complications related to maintenance therapy (Eskow and Valerie Stemberg Smith).

Introduction.
Inflammatory peri-implant disease.
Loss of stability of restorative components.
Peri-implant mucosal hyperplasia.

Conclusion.

Take-home hints.
References.

24 Medicolegal issues related to implant complications (Edwin J. Zinman).

Etiology of malpractice litigation.
Prevention of litigation.
Litigation risk management.

Take-home hints.
References.

25 Management of implant complications by the experts.

Introduction.
Cases.
Case 1: Treatment of midbuccal recession in the esthetic zone (Pamela K. McClain).
Case 2: Treatment of buccal soft-tissue recession on a restored central incisor implant (Jeffrey R. Lemler).
Case 3: Repair of failed esthetic implant case (Bobby Butler).
Case 4: Treatment of an osseous defect associated with an placed implant (Donald S. Clem).
Case 5: Treatment of bone loss from an acute abscess around dental implant (Bradley S. McAllister).
Case 6: Replacement of a failed implant in zone (Abd Elsalam Elaskary).
Case 7: Treatment and replacement malpositioned implant in the esthetic zone (Scott H. Froum).
Case 8: Corrective treatment malpositioned implant in the esthetic zone (J. Daulton Keith).
Case 9: Treatment of malposition in the esthetic zone (Burton Langer and Laureen Langer).
Case 10: Treatment malpositioned implant in the esthetic zone (Stuart J. Froum Jeffrey R. Lemler).

Index.
