Infectious Diseases in Critical Care Medicine

Cunha, Burke A.

Table of Contents

Methicillin-resistant Staphylococcus aureus/vancomycin-resistant enterococci colonization and infection in the critical care unit
  C. Glen Mayhall
Outbreak investigation in the critical care unit
  Brian W. Cooper
Clinical approach to fever in the critical care unit
  Burke A. Cunha
Sepsis and its mimics in the critical care unit
  Burke A. Cunha
Meningitis and its mimics in the critical care unit
  Burke A. Cunha
Encephalitis and its mimics in the critical care unit
  Burke A. Cunha
Severe head and neck infections in the critical care unit
  Franco Paradisi, Giampaolo Corti
Severe community-acquired pneumonia in the critical care unit
  Burke A. Cunha
Nosocomial pneumonia in the critical care unit
  Emilio Bouza, Almudena Burillo, Maria V. Torres
Pleural empyema/lung abscess in the critical care unit
  John G. Bartlett
Infective endocarditis and its mimics in the critical care unit
  John L. Brusch
Acute myocarditis and acute pericarditis in the critical care unit
  Jason M. Lazar, Diane H. Johnson, Burke A. Cunha
Central intravenous line infections in the critical care unit
  Burke A. Cunha
Intra-abdominal surgical infections and their mimics in the critical care unit
  Meghann L. Kaiser, Samuel E. Wilson
Clostridium difficile - associated diarrhea and colitis in the critical care unit
  Marcia Drees, Sherwood L. Gorbach
Severe skin and soft tissue infections in the critical care unit
  Mamta Sharma, Louis D. Saravolatz
Infections in patients on steroids in the critical care unit
  John N. Sheagren
Fever and rash in the critical care unit
  Lee S. Engel, Charles V. Sanders, Fred A. Lopez
Tropical infections in the critical care unit
  David R. Tribble, Kenneth F. Wagner
HIV/AIDS in the critical care unit
  Larry I. Lutwick
Infections in cirrhosis in the critical care unit
  Laurel C. Preheim
Infections associated with diabetes in the critical care unit
  Larry I. Lutwick
Infection in organ transplant patients in the critical care unit
  Patricia Munoz, Almudena Burillo, Emilio Bouza
Infections in asplenics in the critical care unit
  Jihad Slim, Leon G. Smith
Infections in burns
  Steven E. Wolf, Basil A. Pruitt, Seung H. Kim
Urosepsis in the critical care unit
  Burke A. Cunha
Infections related to bioterrorism
  David Schlossberg
Antibiotic dosing in hepatic/renal insufficiency
  Damary C. Torres, Donna Sym, April Correll
Adverse reactions to antibiotics
   Eric V. Granowitz, Richard B. Brown
Antibiotic kinetics in the febrile multiple system trauma patient
   Donald E. Fry
Antibiotic selection and control of resistance in the critical care unit
   Burke A. Cunha
Antimicrobial therapy in the penicillin-allergic patient in the critical care unit
   Burke A. Cunha
