Infection Management for Geriatrics in Long-Term Care Facilities

Yoshikawa, Thomas T.

Table of Contents

Demographics and economics of long-term care
   A. Jefferson Lesesne, Joseph G. Ouslander

Epidemiology and special aspects of infectious diseases in aging
   Thomas T. Yoshikawa

Evaluation of infections in long-term care facilities versus acute care hospitals
   Arnel M. Joaquin

Role of functional assessment in evaluating and managing infections in long-term care
   Barbara J. Messinger-Rapport, Robert M. Palmer

Impaired immunity and increased risk of infections in older adults: impact of chronic disease on immunosenescence
   Steven C. Castle, Koichi Uyemura, Takashi Makinodan

Nutrition and infection
   Kevin P. High

Ethical issues of infectious disease interventions
   Elizabeth L. Cobbs

Clinical manifestations of infections
   Dean C. Norman, Megan Bernadette Wong

Establishing an infection control program
   Lona Mody

Epidemiologic investigation of infectious disease outbreaks in long-term care facilities
   Chesley L. Richards, Jr., William R. Jarvis

An approach to antimicrobial therapy
   Jay P. Rho

Urinary tract infection
   Lindsay E. Nicolle

Influenza and other respiratory viruses
   Ghinwa Dumyati

Pneumonia and bronchitis
   Joseph M. Mylotte

Tuberculosis
   Shobita Rajagopalan

Infected pressure ulcers
   Steven C. Reynolds, Anthony W. Chow

Herpes zoster, cellulitis, and scabies
   Kenneth E. Schmader, Jack Twersky

Infectious diarrhea
   Abbasi J. Akhtar, Made Sujita

Hepatitis in long-term care facilities
   Darrell W. Harrington, Peter V. Barrett

Conjunctivitis, otitis, and sinusitis
   Deborah Moran, Made Sutjita, Kathleen Daretany

Human immunodeficiency virus infection in the nursing home
   Allen S. Funnype

Vaccinations
   Rex Biedenbender, Stefan Gravenstein, Anydas Ambrozaitis

Methicillin-resistant Staphylococcus aureus
   Thomas T. Yoshikawa, Larry J. Strausbaugh

Vancomycin (glycopeptide)-resistant enterococci in the long-term care setting
   Suzanne F. Bradley

Gram-negative bacteria
   Vinod K. Dhawan

Fungal infections
   Carol A. Kauffman, Sara A. Hedderwick

Severe acute respiratory syndrome
   Mark B. Loeb

App. A. Definitions of common infections in long-term care facilities
App. B. Guide to evaluating fever and infection in long-term care facilities
App. C. Minimum criteria for the initiation of antibiotics in residents of long-term care facilities: results of a consensus conference
