16. Investigational Immunosuppressive Agents: Biologicals
   Susan E. Light, Robert B. Ettenger

III. Organ Procurement/Economics
   William E. Harmon

17. Cadaver Donor Management
   Francis L. Delmonico

18. Economics of Transplantation
   Theodor I. Steinman

IV. Medical Complications of Transplantation
   Connie L. Davis

19. Heart Disease in Non-Heart Transplant Recipients
   James B. Young

20. Principles of Infectious Disease Management for the Organ Transplant Recipient
    Jay A. Fishman, Robert H. Rubin

21. Kindly Disease in Nonrenal Transplantation
    Thomas A. Gompa

22. Liver Disease in Non-Liver Transplant Patients
    Hugo R. Rosen

23. Lung Disease in Non-Lung Transplant Patients
    David D. Ralph

24. Metabolic Complications
    Fuad S. Shihab

25. Bone Disease Following Transplantation
    Susan M. Ott

26. Neoplasia Following Transplantation
    Israel Penn

27. Transplantation and Reproductive Health
    Thomas R. Easterling, Darcy Carr

28. Diseases of the Skin Following Transplantation
    Thomas Stasko, Mark A. Russell

29. Ocular Complications in Transplant Patients
    Saad Shaikh, Steven Sanislo

30. Long-Term Management of the Transplanted Patient: Health Maintenance Issues
    Alan Wilkinson

31. Special Issues in Pediatric Organ Transplantation
    William E. Harmon

V. Heart Transplantation
   Jon A. Kobashigawa

32. Historical Overview of Heart Transplantation
    Sharon A. Hunt

33. Evaluation and Management of Prospective Heart Recipients
    Daniel P. Fishbein

34. Living Heart Donors - Domino Heart Transplantation
    Jayan Parameshwar

35. Cadaver Heart Donor Selection Criteria
    Jonah Odim, Daniel Marelli, Hillel Laks

36. The Continuing Evolution of Donor Heart Allocation
    Lynne Warner Stevenson

37. Heart Transplantation: Technical Tips to the Surgical Procedure
    Robert E. Michler

38. Immediate Postoperative Management of the Heart Transplant Recipient
    James K. Kirklin

39. Physiology of the Transplanted Heart
    Jon A. Kobashigawa

40. Induction Immunosuppression Protocols for Heart Transplantation
    Laslie W. Miller

41. Left Ventricular Dysfunction after Cardiac Transplantation: Etiologies, Diagnosis and Treatment
    Howard J. Eisen

42. Pathologic Findings of Cardiac Dysfunction
    Michael C. Fishbein

43. Long-Term Management Issues in Heart Transplantation
    Mohamad H. Yamani, Randall C. Starling

44. Maintenance Immunosuppression Protocols for Heart Transplantation
    David O. Taylor, Dale G. Renlund, Abdallah G. Kfoury

45. Expected Clinical Outcomes - Risk Factors for Heart Transplantation
    Jeffrey D. Hosenpud

46. Special Considerations in Pediatric Heart Transplantation
    Linda J. Addonizio
47. Heart-Lung Transplantation
   James S. Gammie, Robert L. Kormos

VI. Kidney and Pancreas Transplantation
   Bertram L. Kasiske

48. History of Kidney and Pancreas Transplantation
   Paul E. Morrissey, Peter N. Madras, Anthony P. Monaco

49. Evaluation and Management of Prospective Kidney Recipients
   Bertram L. Kasiske

50. Living Kidney Donor Evaluation and Selection
   Gabriel M. Danovitch

51. Cadaver Kidney Donor Selection
   Carlton J. Young, Robert S. Gaston

52. Sharing and Allocation
   John F. Neylan

53. Technical Aspects of Renal Transplantation
   John M. Barry

54. Immediate Postoperative Management of the Kidney Transplant Recipient
   Daniel C. Brennan

55. Physiology of the Transplanted Kidney
   Matthew R. Weir

56. Induction Immunosuppression Protocols for Kidney Transplantation
   Flavio Vincenti

57. Diagnosis and Treatment of Renal Dysfunction Episodes
   V. Ram Peddi, M. Roy First

58. Pathologic Findings of Renal Allograft Dysfunction
   Kim Solez, Lorraine C. Racusen

59. Long-Term Management Issues in Kidney Transplantation
   Donald E. Hricik

60. Maintenance Immunosuppression Protocols for Kidney Transplantation
   Barbara T. Murphy

61. Expected Clinical Outcomes - Risk Factors in Kidney Transplantation
   Arthur J. Matas

62. Special Considerations in Pediatric Kidney Transplantation
   Amir H. Tejani

63. Pancreas and Simultaneous Kidney-Pancreas Transplantation
   John D. Pirsch, Robert J. Stratta

64. Pancreatic Islet Cell Transplantation
   Bernhard J. Hering, Camilla Ricordi, David Sutherland

VII. Liver and Intestinal Transplantation
   Michael R. Lucey

65. Historical Overview of Liver Transplantation
   Sue V. McDiarmid, Michael R. Lucey

66. Evaluation and Management of Prospective Liver Transplant Candidates
   John R. Lake

67. Living-Related Liver Transplantation: Selection of Recipient and Donors
   Jean Emond

68. Cadaver Liver Donor Selection Criteria
   Kim M. Olthoff

69. Liver Donor Allocation Scheme
   Abraham Shaked, Michael R. Lucey

70. Surgical Techniques in Liver Transplantation
   Hasan Yersiz, Ronald W. Busuttil

71. Immediate Postoperative Management of the Liver Transplant Patient
   Timothy McCashland, Michael F. Sorrell

72. Physiology of the Transplanted Liver
   James Neuberger, David Adams

73. Induction Immunosuppression Protocols for Liver Transplantation
   Frederick Nunes

74. Diagnosis and Treatment of Hepatic Allograft Dysfunction
   Fatima A. F. Queiqueirodo, K. V. Narayanan Menon, Russell H. Wiesner

75. The Histopathology of Liver Allograft Dysfunction
   A. J. Demetriss, Randolph G. Lee

76. Long-Term Issues in Liver Transplantation
   Rafik M. Ghobrial, Hugo R. Rosen, Paul Martin

77. Maintenance Immunosuppression for Liver Transplantation
   Gregory T. Everson

78. Expected Clinical Outcomes/Risk Factors for Liver Transplantation
   Kimberly Ann Brown, Dilip Moonka
