Table of Contents

Section 1: Microbiology

Chapter 1: Basic Concepts
- Bacteria
- Fungi
- Protozoa
- Helminths
- Viruses

Chapter 2: Bacteria

Gram Positive Cocci
- Staphylococcus
- Streptococcus
- Enterococcus

Gram Positive Rods
- Bacillus
- Clostridium
- Corynebacterium
- Listeria

Gram Negative Cocci
- Neisseria
- Moraxella
- Acinetobacter

Gram Negative Rods
- Enterobacteriaceae
- Other GNR Causing Enteric Infections
- GNR Causing Respiratory Infections
- GNR Causing Zoonotic Infections

Atypical Bacteria (Gram Variable)
- Acid Fast Bacteria
- Bacteria Not Seen with Gram Stain or Acid Fast
- Spirochetal Organisms

Chapter 3: Fungi

Yeast & Dimorphic Fungi
- Cutaneous & Subcutaneous Pathogens
- Invasive Pathogens

Molds
- Cutaneous Pathogens
- Invasive Pathogens

Chapter 4: Parasites

Protozoa
- Gi/GU
- Invasive
Metazoa
Tapeworms (cestodes)
Flukes (trematodes)
Intestinal Roundworms (nematodes)
Tissue Roundworms (nematodes)

Chapter 5: Viruses

DNA Viruses
- Naked DNA Viruses (unencapsulated)
- Encapsulated DNA Viruses

RNA Viruses
- Naked RNA Viruses (Unencapsulated)
- Encapsulated RNA Viruses

Chapter 6: Antibiotics

Chapter 7: Overview of Class A Bioterrorism Pathogens

Microbiology Review Questions & Answers

Section 2: Immunology

Chapter 8: White Blood Cells

Myeloid Cells
- Granulocytes
- Mononuclear Cells
- Megakaryocytes
- Dendritic Cells

Lymphoid Cells
- B Lymphocytes
- T Lymphocytes
- T Lymphocytes
- Natural Killer (NK) Lymphocytes

Chapter 9: Major Histocompatibility Complex (MHC)

General Characteristics
Class I MHC
Class II MHC
Transplant Immunology

Chapter 10: Basic Concepts

Innate vs. Specific Immunity
- Innate Immunity
- Specific Immunity

Tolerance
Autoimmunity

Chapter 11: Cytokines—A Brief Guide

Chapter 12: Immune Organ Systems

Primary Immune Organs
- Bone Marrow
- Thymus

Secondary Immune Organs
- Lymph Nodes
- Spleen
- Mucosal Associated Lymphoid Tissue (MALT)
Chapter 13: Hypersensitivity Reactions

- Allergic (Type 1)
- Cytotoxic (Type 2)
- Immune Complex (Type 3)
- Delayed Type (Type 4)

Chapter 14: Immunodeficiencies

- Primary
- Acquired
  - AIDS
  - Drug Induced

Chapter 15: Testable Laboratory Immunology

- Mitogens
- ELISA
- Western Blot
- Monoclonal Antibodies

Immunology Review Questions & Answers

Microbiology and Immunology Review Questions & Answers: A Self-Assessment Test
