# Evidence-Based Cardiology

**Yusuf, Salim FRCS**

## Table of Contents

### Part I: General concepts and critical appraisal.

2. A critical appraisal of the cardiovascular history and physical examination - Ernest Fallen.
3. Obtaining incremental information from diagnostic tests - Raymond J Gibbons.
5. Understanding concepts related to health economics - Mark Hlatky.
7. Implementing evidence based cardiology - Brahmajee Nallamothu, Thomas Tsai.
8. CV Disease and occupational health issues - Michael Joy.

### PART II Prevention of cardiovascular diseases.

10. Tobacco: global burden and community solutions - Prabhat Jha.
11. Tobacco and cardiovascular disease: achieving smoking cessation in individuals - Andrew Pipe.
13. Use of lipid lowering agents in the prevention of cardiovascular disease - Jeffrey L Probstfield, Alan Failor.
17. Psychosocial factors - Annika Rosengren.
18. Social influences / Social Determinants of Heart Disease - Martin McKee, Clara Chow.
22. The fetal origins of coronary heart disease - Stephanie Atkinson, Katherine Morrison, Koon Teo.

### PART IIIa Stable coronary artery disease.

30 Comparisons of PCI and CABG - Arashk Motiei, Charanjit S. Rihal.

PART IIb Acute Coronary Syndromes.

31 Early Management of Non-ST-segment MI - Pierre Theroux, John Cairns.
32 Reperfusion therapies for STEMI - J. Brent Muhlestein.
33 Antithrombotic therapies for patients with STEMI - Keith Fox, Andrew Lucking.
34 Complications of STEMI - Peter L Thompson.
35 An integrated approach to the management of patients after the early phase of STEMI - Pedro L Sánchez, Fernando Aviles.

PART IIc Arrhythmias.

36 Atrial fibrillation: rate versus rhythm? - Albert Waldo.
38 Atrial fibrillation: antithrombotic therapy - John A Cairns, Stuart Connolly.
39 Atrial fibrillation: ablation therapy - Andrea Natale, CK Ching.
40 Supraventricular tachycardia: drugs v ablation - Gerald Naccarelli, Erica D. Penny-Peterson.
41 Prevention and treatment of life-threatening ventricular arrhythmia and sudden death - Carlos Morillo.
42 Pacemaker Therapy, including Bi-ventricular Pacing - William Toff, John Camm.
43 Syncope - David Benditt, Fei Lu, Scott Sakaguchi.
44 Cardiopulmonary resuscitation - Michael Colquhoun.
45 New and Old antiarrhythmic Drugs - John Camm, Irina Savelieva.
46 Arrhythmias due to monogenic disorders - Dan Roden, P. Kannankeril, Dawood Darbar.
47 Arrhythmias due to monogenic disorders: right ventricular cardiomyopathy (ARVC) - Deirdre Ward, Perry M Elliott.
48 Arrhythmias due to monogenic disorders: left ventricular dysfunction.
49 Epidemiology and prevention of congestive heart failure and treatment of asymptomatic left ventricular dysfunction - John McMurray, Paul Rocchiccioli.
50 Management of overt heart failure - Karl Swedberg, Karl Hauptman.
51 Acute myocarditis and dilated cardiomyopathy - Leslie Cooper, Oyere Onuma.
52 Management of Hypertrophic Cardiomyopathy - Barry Maron.
53 Infective and infiltrative cardiomyopathies - Perry Elliott.
54 Chagas’ disease - Jose A Marin-Neto, Anis Rassi Júnior, Benedito Carlos Maciel, Marcus Vinicius Simoes, André Schmidt.

PART IIe Specific cardiovascular disorders: Pericardial disease.

55 Pericardial disease: an evidence-based approach to diagnosis and treatment - Faisal F Syed, Bongani M Mayosi.
56 Rheumatic heart disease: prevention and acute treatment - Patrick J Commerford, Bongani Mayosi.
58 Surgical Indications in Aortic valve Disease - Heidi M Connolly, Sunil Mankad, Shahbudin H Rahimtoola.
60 Balloon valvuloplasty: mitral valve - Zoltan G Turi.
61 Valve repair and choice of valves - Shafie S Fazel, Tirone E. David.
PART III Specific cardiovascular disorders: Other conditions.

62 Diagnosis, management and prevention of infective endocarditis - Andrew Wang.

PART IIIa Specific cardiovascular disorders: Other conditions.

64a Management of acute stroke - Ashfaq Shuaib, Brian Buck.
64b Secondary prevention of stroke - Craig Anderson.

65 Heart disease and pregnancy - Samuel C Siu, Rachel Wald.
66 Adult congenital heart disease - Elisabeth Bédard, Michael Gatzoulis.
67 Venous thromboembolic disease - Lori Linkins, Clive Kearon.
68 Peripheral vascular disease - Sonia Anand, Catherine McGorrian.

69 Cardiac risk in those undergoing non cardiac surgery - Kim Eagle, Ameeth Verde.

70 Clinical Management of Diseases of the Aorta - Thor Sundt.
71 Cardiac transplantation: indications and post operative management - Sudhir Kushwaha, Barry Boilson.
72 Renal dysfunction - Johannes Mann, Regina Kunz, Hertzel C. Gerstein, Ernesto L. Schiffrin.
73 Pulmonary hypertension - Brendan Madden.

PART IV Clinical applications.

74 Clinical applications of external evidence - Ernest L Fallen, Salim Yusuf.
75 Stable angina: choice of PCI v CABG v drugs - William Weintraub.
76 Acute coronary syndromes - David Fitchett, Ernest Fallen.
77 Acute ST segment elevation myocardial infarction (STEMI) - Ernest L Fallen.
78 Metabolic risk and Post myocardial infarction management - Jacques Genest Jr.

79 Heart failure - Michael M Givertz, Garrick Stewart.
80 Atrial fibrillation - Michael Klein.
81 Ventricular dysrhythmias: pharmacologic v non-pharmacologic treatment - Jeffrey S Healey.
82 Bradyarrhythmias: Management and choice of pacemakers - Carlos Morillo.
83 Peripheral vascular disease with suspect coronary artery disease - Victor Aboyans, Michael Criqui.
84 Valvular heart disease: timing of surgery - Victor Chu, Jon-David Schwalm
