Table of Contents

Introduction.
Defining Cosmetic Dermatology.

Section I: Basic Concepts.

Part One.
Skin Physiology Pertinent to Cosmetic Dermatology

1. Skin barrier
2. Photoaging
3. Sensitive skin
4. Pigmentation and skin of color
5. Sensory perceptions
6. Skin function noninvasive assessment
7. Contact dermatitis and topical agents

Part Two.
Delivery of Cosmetic Skin Actives

1. Percutaneous delivery and penetration enhancers
2. Vehicles for cosmetic purposes
3. Creams and ointments
4. Gels
5. Aerosols
6. Powders and nanoparticles
7. Liposomes and nanosomes
8. Patches

Section II: Hygiene Products.
Part Three.
Cleansers

1. Bar cleansers for normal skin
2. Liquid cleansers and body washes for dry skin
3. Lipid free cleansers and cold creams for special needs
4. Antibacterial cleansers and skin infection
5. Hand sanitizers
6. Astringents for oily skin
7. Exfoliant scrubs and cleansers
8. Cleansing clothes and implements
9. Shampoos for normal scalp hygiene and dandruff

Part Four.

Moisturizers

1. Facial
2. Hand and foot
3. Skin protectants
4. Lip balms
5. Sunless tanning moisturizers
6. Sunscreens

Part Five.

Personal Products

1. Antiperspirants and deodorants
2. Fragrances
3. Toothpaste
4. Shaving products

Part Six.

Colored Facial Cosmetics

1. Facial foundation
2. Camouflage techniques
3. Lipsticks
4. Eye cosmetics

Part Seven.

Nail Cosmetics

1. Nail physiology and grooming
2. Colored nail cosmetics and hardeners
3. Nail prostheses

Part Eight.
Hair Cosmetics

1. Hair physiology and grooming
2. Hair dyes
3. Hair permanent waving
4. Hair straightening
5. Gels, sprays and styling aids

Part III: Antiaging.
Part Nine.
Cosmeceuticals

1. Botanicals
2. Antioxidants
3. Anti-inflammatories
4. Peptides and proteins
5. Cellular growth factors
6. Retinoids
7. Topical vitamins and nutritionals
8. Exfoliants and hydroxy acids
9. Nutraceuticals and skin health

Part Ten.
Injectable Antiaging Techniques

1. Botulinum toxins
2. Hyaluronic acid fillers
3. Hydroxyapatite fillers
4. Collagen fillers
5. Polylactic acid fillers

Part Eleven.
Resurfacing Techniques

1. Superficial chemical peels
2. Medium depth chemical peels
3. Laser resurfacing
4. Noninvasive resurfacing techniques
5. Microdermabrasion
6. Dermabrasion

Part Twelve.

Skin Modulation Techniques

- Intense Pulsed Light
- Radiofrequency
- Diodes and light sources

Part Thirteen.

Skin Contouring Techniques

- Liposuction: manual, mechanical, and laser assisted
- Chin, neck, and facial contouring liposuction
- Autologous fat transfer
- Subcutaneous fillers and implants

Part Fourteen.

Implementation of Cosmetic Dermatology into Therapeutics

- Antiaging regimens
- Acne regimens
- Rosacea regimens
- Eczema and atopic dermatitis regimens
- Psoriasis regimens

Summary.
