Table of Contents

UNIT I Pulmonary System

Section One
Airway Management: Michael W. Day
1. Combitube Insertion and Removal AP
2. Endotracheal Intubation (Perform) AP
3. Endotracheal Intubation (Assist)
4. Endotracheal Tube and Oral Care
5. Extubation/Decannulation (Perform) AP
6. Extubation/Decannulation (Assist)
7. Laryngeal Mask Airway AP
8. Emergency Cricothyroidotomy (Perform) NEW!
9. Emergency Cricothyroidotomy (Assist) NEW!
10. Nasopharyngeal Airway Insertion
11. Oropharyngeal Airway Insertion
12. Suctioning: Endotracheal or Tracheostomy Tube
13. Tracheal Tube Cuff Care
14. Tracheostomy Tube Care

Section Two
Special Pulmonary Procedures: Michael W. Day
15. Continuous End-Tidal Carbon Dioxide Monitoring
16. Continuous Venous Oxygen Saturation Monitoring
17. Oxygen Saturation Monitoring by Pulse Oximetry
18. Pronation Therapy

Section Three
Thoracic Cavity Management: Michael W. Day
19. Autotransfusion
20. Chest Tube Placement (Perform) AP
21. Chest Tube Placement (Assist)
22. Chest Tube Removal (Perform) AP
23. Chest Tube Removal (Assist)
24. Closed Chest Drainage System
25. Needle Thoracostomy (Perform) AP
26. Thoracentesis (Perform) AP
27. Thoracentesis (Assist)

Section Four

Ventilatory Management: Michael W. Day

28. Noninvasive Ventilation (CPAP and BiPAP Masks) NEW!

29. Arterial-Venous Oxygen Content Difference (a-v DO2) and Oxygen Transport (Delivery) and Consumption Calculations

30. Auto-PEEP Calculation

31. Compliance and Resistance Measurement

32. Manual Self-Inflating Resuscitation Bag

33. Indices of Oxygenation

34. Shunt Calculation

35. Invasive Mechanical Ventilation (Through an Artificial Airway)—Volume and Pressure Modes

37. Weaning Process

38. Peripheral Nerve Stimulators

UNIT II Cardiovascular System

Section Five

Cardiac Emergencies: Debra Wiegand

39. Automated External Defibrillation

40. Cardioversion

41. Defibrillation (External)

42. Defibrillation (Internal) AP

43. Emergent Open Sternotomy (Perform) AP

44. Emergent Open Sternotomy (Assist)

45. Pericardiocentesis (Perform) AP

46. Pericardiocentesis (Assist)

Section Six

Cardiac Pacemakers: Debra Wiegand

47. Atrial Electrogram

48. Atrial Overdrive Pacing (Perform) AP

49. Epicardial Pacing Wire Removal AP

50. Implantable Cardioverter-Defibrillator

51. Permanent Pacemaker (Assessing Function)

52. Temporary Transcutaneous (External) Pacing

53. Temporary Transvenous Pacemaker Insertion (Perform) AP

54. Temporary Transvenous and Epicardial Pacing

Section Seven

Circulatory Assist Devices: Debra Wiegand

55. Intraaortic Balloon Pump Management
56. Ventricular Assist Devices

Section Eight

Electrocardiographic Leads and Cardiac Monitoring: Debra Wiegand

57. Electrophysiologic Leads and Cardiac Monitoring

58. Extra Electrocardiographic Leads: Right Precordial and Left Posterior Leads

59. Continuous ST-Segment Monitoring

60. Twelve-Lead Electrocardiogram

Section Nine

Hemodynamic Monitoring: Debra Wiegand

61. Arterial Catheter Insertion (Perform) AP

62. Arterial Catheter Insertion (Assist), Care and Removal

63. Arterial Pressure-Based Cardiac Output Monitoring

64. Blood Sampling From an Arterial Catheter

65. Blood Sampling from a Central Venous Catheter

66. Blood Sampling From a Pulmonary Artery Catheter

67. Cardiac Output Measurement Techniques (Invasive)

68. Central Venous Catheter Removal

69. Central Venous Catheter Site Care

70. Central Venous/Right Atrial Pressure Monitoring

71. Left Atrial Catheter: Care and Assisting With Removal

72. Pulmonary Artery Catheter Insertion (Perform) AP

73. Pulmonary Artery Catheter Insertion (Assist) and Pressure Monitoring

74. Pulmonary Artery Catheter Removal

75. Pulmonary Artery Catheter and Pressure Lines, Troubleshooting

76. Single- and Multiple-Pressure Transducer Systems

Section Ten

Special Cardiac Procedures: Debra Wiegand

77. Arterial and Venous Sheath Removal AP

78. Pericardial Catheter Management

79. Transesophageal Echocardiography (Assist)

Section Eleven

Vascular Access: Debra Wiegand

80. Arterial Puncture AP

81. Central Venous Catheter Insertion (Perform) AP

82. Central Venous Catheter Insertion (Assist)

83. Implantable Venous Access Device: Access, Deaccess, and Care AP

84. Intraosseous Devices

85. Peripherally Inserted Central Catheter AP

UNIT III Neurologic System
Section Twelve

Neurologic Monitoring: Patricia A. Blissitt

86. Bispectral Index Monitoring
87. Brain Tissue Oxygenation Monitoring: Insertion (Assist), Care, and Troubleshooting
88. Intracranial Bolt and Fiberoptic Catheter Insertion (Assist), Intracranial Pressure Monitoring, Care, Troubleshooting, and Removal
89. Combination Intraventricular/Fiberoptic Catheter Insertion (Assist) and Monitoring
90. Jugular Venous Oxygen Saturation Monitoring: Insertion (Assist), Care, Troubleshooting, and Removal
91. Lumbar Subarachnoid Catheter Insertion (Assist) for Cerebral Spinal Fluid Pressure Monitoring and Drainage
92. Intraventricular Catheter with External Transducer for Cerebrospinal Fluid Drainage and Intracranial Pressure Monitoring

Section Thirteen

Special Neurologic Procedures: Pat Blissitt

94. External and Intravascular Warming/Cooling Devices
95. Lumbar Puncture (Perform) AP
96 Lumbar Puncture (Assist)

Section Fourteen

Traction Management: Patricia A. Blissitt

97. Application of Tongs or Halo Ring for Use in Cervical Traction
98. Halo Ring and Vest Care
99. Pin Site Care: Cervical Tongs and Halo Pins
100. Cervical Traction Maintenance

Section Fifteen

Pain Management: Patricia A. Blissitt

101. Epidural Catheters: Assisting with Insertion and Pain Management
102. Patient-Controlled Analgesia
103. Peripheral Nerve Blocks: Assisting with Insertion and Pain Management

UNIT IV Gastrointestinal System

Section Sixteen

Special Gastrointestinal Procedures: Eleanor Fitzpatrick

104. Esophagogastric Tamponade Tube
105. Gastric Lavage in Hemorrhage and Overdose
106. Intraabdominal Pressure Monitoring
107. Paracentesis (Perform) AP
108. Paracentesis (Assist)
109. Peritoneal Lavage (Perform) AP
110. Peritoneal Lavage (Assist)
111. Endoscopic Therapy

UNIT V Renal System

Section Seventeen
Renal Replacement: Teresa Preuss
112. Continuous Renal Replacement Therapies
113. Hemodialysis
114. Peritoneal Dialysis

UNIT VI Hematologic System
Section Eighteen
Fluid Management: Teresa Preuss
115. Use of a Massive Transfusion Device and a Pressure Infusor Bag

Section Nineteen
Special Hematologic Procedures: Teresa Preuss
116. Apheresis and Therapeutic Plasma Exchange (Assist)
117. Bone Marrow Biopsy and Aspiration (Perform) AP
118. Bone Marrow Biopsy and Aspiration (Assist)

UNIT VII Integumentary System
Section Twenty
Burn Wound Management: Mary Beth Makic
119. Donor Site Care
120. Burn Wound Care
121. Skin Graft Care

Section Twenty-One
Special Integumentary Procedures: Mary Beth Makic
122. Intracompartmental Pressure Monitoring AP
123. Pressure Redistribution Surfaces: Continual Lateral Rotation Therapy and Rotorest Lateral Rotation Surface
124. Wound Closure AP
125. Suture and Staple Removal

Section Twenty-Two
Wound Management: Mary Beth Makic
126. Cleaning, Irrigating, Culturing, and Dressing an Open Wound
127. Débridement: Pressure Ulcers, Burns, and Wounds AP
128. Wound Management with Excessive Drainage
129. Drain Removal
130. Fecal Containment Devices and Bowel Management System NEW!
131. Negative-Pressure Wound Therapy

UNIT VIII Nutrition: Eleanor Fitzpatrick
132. Small-Bore Feeding Tube Insertion Using an Electromagnetic Guidance System (CORTRAK®) NEW!
133. Percutaneous Endoscopic Gastrostomy (PEG), Gastrostomy, or Jejunostomy Tube Care
134. Small-Bore Feeding Tube Insertion and Care

UNIT IX End of Life: Debra Wiegand
135. Determination of Death in Adult Patients AP
136. Organ Donation: Identification of Potential Organ Donors, Request for Organ Donation, and Care of the Organ Donor
137. Cardiac Donation
