# Table of Contents

## Overview
- James Parkinson
- Jennifer G. Goldman and Christopher G. Goetz
  - Parkinson’s Disease: Where Have We Been?
  - Lawrence W. Elmer
- Raúl de la Fuente-Fernández
  - Parkinson’s Disease: Where Are We?

## Epidemiology
- Monica Korell and Caroline M. Tanner
  - Epidemiology of Parkinson’s Disease: An Overview
- Jason R. Cannon and Timothy J. Greenamyre
  - Environmental Toxins and Parkinson’s Disease
- Daniel Strickland
  - Rural Environment and Parkinson’s Disease
- Samuel Goldman
  - Industrial and Occupational Exposures and Parkinson Disease
- Mark S. LeDoux
  - Tetrahydroisoquinolines and Parkinson’s Disease
- Shaik Shavali and Manuchair Ebadi
  - Endogenous Neurotoxins in the Pathogenesis and Progression of Parkinson’s Disease
- Mathias Toft and Zbigniew K. Wszolek
  - Overview of the Genetics of Parkinsonism
- Thomas Gasser
  - α-Synuclein and Parkinson’s Disease
- Jonathan Carr and Soraya Bardien
  - LRRK2-Associated Parkinson’s Disease
- Anne Grähnrewald and Christine Klein
  - Parkin- and DJ-1-Linked Parkinsonism
- Eng-King Tan
  - Genetic and Bioinformatic Tools in Parkinson’s Disease
- Tatiana Foroud and Nathan Pankratz
  - Clinical Features of Parkinson’s Disease

## Clinical Features of Parkinson’s Disease
- Kelvin L. Chou and Howard I. Hurtig
  - Tremor, Rigidity, and Bradykinesia
- Yacov Balash, Jeffrey M. Hausdorff, Tanya Gurevich, and Nir Giladi
  - Gait Disorders in Parkinson’s Disease
- Padraig Ó’Suilleabhain
  - Somesthesia
- Blair Ford
  - Restless Legs Syndrome and Periodic Limb Movements of Sleep
- Bryan T. Klassen and Charles H. Adler
  - Fatigue: A Common Comorbidity in Parkinson’s Disease
- Anelyssa Dabre and Joseph H. Friedman
  - Visual Dysfunction in Parkinson’s Disease
- Robert L. Rodnitzky
  - Visuo-Cognitive Dysfunctions in Parkinson’s Disease
- Andrea Antal, Walter Paulus, and Ivan Bodis-Wollner
  - Olfactory Dysfunction in Parkinson’s Disease and Parkinsonian Syndromes
- Katerina Markopoulou and Bruce A. Chase
  - Insomnia and Excessive Daytime Sleepiness in Parkinson’s Disease
- J.A. Van Gerpen and Pablo Castillo
  - REM Sleep Behavior Disorder
- Aleksandar Vidovic and Cynthia L. Comella
  - Gastrointestinal Dysfunction in Parkinson’s Disease
Pathophysiology of Parkinson’s Disease

Animal Models of Basal Ganglia Injury and Degeneration and Their Application to Parkinson’s Disease Research
Giselle M. Petzinger and Michael W. Jakowec

Neuroanatomy of Parkinson’s Disease
Heiko Braak and Kelly Del Tredici-Braak

Neuropathology of Parkinson’s Disease
John E. Duda and Dennis W. Dickson

Neurophysiology of the Motor Disorder in Parkinson’s Disease
Gaëtan Garraux and Mark Hallett

Neurochemistry of Parkinson’s Disease: Dopamine
L. Charles Murrin

Pathophysiology of Parkinson’s Disease, Neurochemical Pathology: Other Neurotransmitters
Yoshikuni Mizuno

Theories of Pathogenesis

Oxidative Stress
Casey Cook and Leonard Petrucelli

Mitochondrial Dysfunction
Daniel G. Healy and A.H.V. Schapira

Excitotoxicity
Fabio Blandini

Inflammation
Roger Kurlan

Protein Conformational and Metabolic Changes in Parkinson’s Disease
Kevin St. P. McNaught and C. Warren Olanow

Cell Death in Parkinson’s Disease
Shankar Sadasivan, Ané Korff, Ciaran J. Faherty, and Richard Jay Smeyne

Diagnosis of Parkinson’s Disease

Differential Diagnosis of Parkinson’s Disease
Serena W. Hung and Anthony E. Lang

Neuroleptic-Induced Movement Disorders
Manuchair Ebadi

Clinical Diagnostic Criteria for Parkinson’s Disease
Daniel Tarsy and Laurie Gordon

Clinical Batteries and Biomarkers in the Diagnosis of Parkinson’s Disease
Claire Henchcliffe and Un Kang

Rating Scales
Kathleen M. Shannon

MR Imaging of Parkinsonism
James B. Wood

Molecular Imaging in Parkinson Disease
Danna Jennings, David Russell, Ken Marek, and John Seibyl

Positron Emission Tomography in Parkinson’s Disease
Silke Appel-Cresswell, R. Nandhagopal, John R. Adams, and A. Jon Stoessl

Transcranial Ultrasound in Parkinson’s Disease
Daniela Berg, Bettina Faust, and Alexandra Gaenslen

In Vivo Molecular Imaging in Parkinson’s Disease
Sushil K. Sharma and Manuchair Ebadi
