## Table of Contents

### Preface
Susan M Ford, Leila M Porter, Lesa C Davis

#### SECTION I: PHYLOGENY

1. **Molecular phylogenetics of the Callitrichidae with an emphasis on the marmosets and Callimico gouldi**
2. **The systematics and distributions of the marmosets (Callithrix, Callibella, Cebuella, and Mico) and callimico (Callimico) (Callitrichidae, Primates)**
3. **The vocal identity of the Callithrix species (Primates, Callitrichidae)**

#### SECTION II: REPRODUCTIVE, SOCIAL, AND COGNITIVE BEHAVIOR

4. **Social behavior of callimicos: mating strategies and infant care**
5. **Genetic structure within and among populations of the common marmoset, Callithrix jacchus: implications for cooperative breeding**
6. **Mating systems and female-female competition in the common marmosets, Callithrix jacchus**
7. **Balancing cooperation and competition in callitrichid primates: examining the relative risk of infanticide across species**
8. **Social hierarchy and dispersal in free-ranging buffy-headed marmosets (Callithrix flaviceps)**
9. **Emigration as a reproductive strategy of the common marmoset (Callithrix jacchus)**
10. **Social and physical cognition in marmosets and tamarins**

#### SECTION III: RANGING BEHAVIOR AND LOCOMOTION

11. **Limited dispersal and genetic structure of silvery marmosets (Mico argentatus) in the fragmented landscape of Central Amazonia**
12. **Habitat use and ranging behavior of the silvery marmoset (Mico argentatus) at Caxiuanã National Forest (eastern Brazilian Amazonia)**
13. **Ranging patterns of Callimico goeldii (callimico) in a mixed species group**
14. **A comparative study of the kinematics of trunk-to-trunk leaping in Callimico goeldii, Callithrix jacchus, and Cebuella pygmaea**
15. **Locomotion, postures, and habitat use by pygmy marmosets (Cebuella pygmaea)**

#### SECTION IV: ANATOMY

16. **Mother's little helper? The placenta and its role in intrauterine maternal investment in the common marmoset (Callithrix jacchus)**
17. **Size and shape in callimico and marmoset skulls: allometry and heterochrony in the morphological evolution of small anthropoids**
18. **Cranial morphology of the dwarf marmoset Callibella in the context of callitrichid variability**
19. **The functional significance of jaw-muscle fiber architecture in tree-gouging marmosets**
20. **The evolutionary morphology of tree gouging in marmosets**
21. **Marmoset postcrania and the skeleton of the dwarf marmoset, Callibella humilis**

#### SECTION V: CONSERVATION

22. **Conservation status of pygmy marmosets (Cebuella pygmaea) in Ecuador**
23. **Conservation of the marmosets and callimicos**

---
