Enzyme- and Transporter-Based Drug-Drug Interactions: Progress and Future Challenges

Pang, K. Sandy

Table of Contents

- Enzymatic Basis of Phase I and Phase II Drug Metabolism
  Susan Kadlubar, Fred F. Kadlubar
- Transporters: Importance in Drug Absorption, Distribution, and Removal
  Frans G. M. Russel
- ADME Pharmacogenetics and Its Impact on Drug-Drug Interactions
  Reinhold Kerb, Matthias Schwab
- Impact of Nuclear Receptors CAR, PXR, FXR, and VDR, and Their Ligands On Enzymes and Transporters
  Rommel G. Tirona
- Impact of Physiological Determinants: Flow, Binding, Transporters and Enzymes on Organ and Total Body Clearances
  K. Sandy Pang, Huadong Sun, Edwin C. Y. Chow
- In Silico Approaches to Predict DDIs
  Chad L. Stoner, Michael R. Wester, Benjamin J. Burke
- In Vitro Techniques to Study Drug-Drug Interactions of Drug Metabolism: Cytochrome P450
  J. Brian Houston, Aleksandra Galetin
- The In Vitro Characterization of Inhibitory Drug-Drug Interactions Involving UDP-Glucuronosyltransferase
  John O. Miners, Thomas M. Polasek, Peter I. Mackenzie, Kathleen M. Knights
- In Vitro Techniques to Study Transporter-Based DDI
  Kelly Bleasby, Xiaoyan Chu, Raymond Evers
- In Vitro Techniques to Study Drug-Drug Interactions Involving Transport: Caco-2 Model for Study of P-Glycoprotein and Other Transporters
  William R. Proctor, Xin Ming, Dhiren R. Thakker
- Use of In Vivo Animal Models to Assess Drug-Drug Interactions
  Thomayant Prueksaritanont
- Extrapolation of In Vitro Metabolic and P-Glycoprotein-Mediated Transport Data to In Vivo by Modeling and Simulations
  Motohiro Kato, Yoshihisa Shitara, Masato Kitajima, Tatsuhiko Tachibana, Masaki Ishigai, Toshiharu Horie, Yuichi Sugiyama
- Translation of In Vitro Metabolic Data to Predict In Vivo Drug-Drug Interactions: IVIVE and Modeling and Simulations
  Amin Rostami-Hodjegan
- Absorption Models to Examine Bioavailability and Drug-Drug Interactions in Humans
  Ahsan Naqi Rizwan, Kim L. R. Brouwer
- Management of Drug Interactions of New Drugs in Multicenter Trials Using the Metabolism and Transport Drug Interaction Database
  Honda Hachad, Isabelle Ragueneau-Majlessi, Rene H. Levy
- Web-Based Database as a Tool to Examine Drug-Drug Interactions Involving Transporters
  Kazuya Maeda, Yoshihisa Shitara, Toshiharu Horie, Yuichi Sugiyama
- Drug Disposition and Drug-Drug Interactions: Importance of First-Pass Metabolism in Gut and Liver
  Catherine K. Yeung, Ping Zhao, Danny D. Shen, Kenneth E. Thummel
- Transporter-Based Drug-Drug Interactions and Their Effect on Distribution Volumes
  Anita Grover, Leslie Z. Benet
- Inactivation of Human Cytochrome P450 Enzymes and Drug-Drug Interactions
  R. Scott Obach, Odette A. Fahmi, Robert L. Walsky
- Allosteric Enzyme and Transporter-Based Interactions
  Murali Subramanian, Timothy S. Tracy
- The Impact and In Vitro to In Vivo Prediction of Transporter-Based Drug-Drug Interactions in Humans
  Jashvant D. Unadkat, Brian J. Kirby, Christopher J. Endres, Joseph K. Zolnerciks
- Herbal Supplement-Based Interactions
  Guohua An, Marilyn E. Morris
- Anticipating and Minimizing Drug Interactions in a Drug Discovery and Development Setting: An Industrial Perspective
  Ragini Vuppugalla, Sean Kim, Tatyana Zvyaga, Yong-hae Han, Praveen Balimane, Punit Marathe, A. David Rodrigues
- Clinical Studies of Drug-Drug Interactions: Design and Interpretation
David J. Greenblatt, Lisa L. von Moltke
Toxicological Consequences of Drug-Drug Interactions
Rachel J. Walsh, Abhishek Srivastava, Daniel J. Antoine, Dominic P. Williams, B. Kevin Park
Complex Drug Interactions: Significance and Evaluation
Ping Zhao, Lei Zhang, Shiew-Mei Huang
Drug-Drug Interactions: Communicating Post-market Drug Safety Information in the USA
Soraya Madani, Helen Winter
Drug-Drug Interactions: What Have We Learned and Where Are We Going?
K. Sandy Pang, Raimund M. Peter, A. David Rodrigues
