Table of Contents

Part I: Management of the REI Clinic and Laboratories
1 Characteristics of a Successful REI Clinic and Laboratory
Douglas T. Carrell and C. Matthew Peterson
2 Assisted Reproductive Technology Practice Management
C. Matthew Peterson, Ahmad O. Hammoud, Erika Lindeley, Douglas T. Carrell, and Karen Wilson
3 Collaboration Within the Reproductive Endocrinology and Infertility Practice:
Integration of Laboratory and Clinic Operations
Vincent W. Aoki and Douglas T. Carrell
4 Informed Consent in Advanced Reproductive Technology
Kirtly Parker Jones
5 Reproductive Laboratory Regulations, Certifications and Reporting Systems
Brooks A. Keel and Tammy K. Schaele
6 Successfully Integrating the FDA Regulations into Your Practice
Wendy D. Latash
7 Psychosocial Consequences of Infertility and Treatment
Lone Schmidt
8 A Live Baby or Your Money Back:
The Marking of In Vitro Fertilization Procedures
David C. Schmittlein and Donald G. Morrison

Part II: Female Reproductive Physiology and Medicine
9 Ovulation
Yulian Zhao, Lisa Kolp, Melissa Yates, and Howard Zaucer
10 Polycystic Ovarian Syndrome
Catherine J. Wheeler, William R. Keye, and C. Matthew Peterson
11 The Current Status for Metformin Use in Reproductive Medicine
Richard S. Legro
12 Clinical Aspects of Endometriosis
Attila Bokor, Christel Meuleman, and Thomas M. D’AÀ‡à„àŒ Hooge
13 Common Endocrinopathies in Reproductive Endocrinology
Shawn Gurtchfe and C. Matthew Peterson
14 Uterine Factors and Infertility
Harry H. Hataska
15 MÀ‡À‹àŒian (Paramesonephric) Anomalies and Associated Wolffian (Mesonephric) Duct Malformations
Jessie Dorais and C. Matthew Peterson
16 Diminished Ovarian Reserve and Ovarian Failure
R. Scott 18
17 Diminished Ovarian Reserve and Ovarian Failure
R. Scott 18
18 Ovulation – a Molecular View
Valerie Savasi and Enrico Ferrazzi
19 Laparoscopy in the Diagnosis and Treatment of Female Infertility
Howard T. Sharp and Johnny Yi
20 Turner Syndrome
Carolyn A. Bondy
21 Errors in Chromosome Segregation During Oogenesis and Early Embryogenesis
Helen Ghislaine Tempest and Catherine Racowsky
22 An Overview of Sperm Production
Joseph P. Alukal and Dolores J. Lamb
23 Meiotic Recombination and Errors During Spermatogenesis
Louis Hermo and Bernard Robaire
24 Clinical Evaluation and Treatment of Male Infertility
Harry H. Hataska, Lynette Scott, and C. Matthew Peterson
25 Semen Analysis – Essentials for the Clinician
Louis Hermo and Bernard Robaire
26 Genetic Testing of Male Infertility
Helen Ghislaine Tempest and RenÀ‡Àœèo Hooge
27 Advanced Tests of Sperm Capacitation, the Acrosome Reaction, and Fertilization
Peter Sutovsky
28 Clinical Aspects if In Vitro Fertilization and Embryo Transfer
Csilla Krausz
29 Varicocele and Male Infertility
Kutluk Oktay and Ozgur Oktem
30 Sperm Retrieval Techniques
Paul J. Turek
31 The Clinical Utility of the Evaluation of Sperm Chromatin
Sergey I. Moskovtsev and J. Brendan
32 Artificial Insemination
Ben W. J. Mol
33 Sperm Preparation for Artificial Insemination
Valeria Savasi and Enrico Ferrazzi
34 Treatment of HIV-1 Discordant Couples
Sergey I. Moskovtsev and J. Brendan
35 Ovulation Induction and Super Ovulation
Vincent W. Aoki
36 Clinical Aspects of Ovulation Induction
M. Mullen
37 Transvaginal Sonography in Reproductive Endocrinology and Infertility
Anne Kennedy and C. Matthew Peterson
38 In Vitro Fertilization and Assisted Reproductive Therapy:
Valeria Savasi and Enrico Ferrazzi
39 Establishing the IVF Laboratory
C. Matthew Peterson
40 In Vitro Fertilization
Carolyn A. Bondy
41 Micromanipulation of Human Oocytes and Embryos
Franziska Popp and Matthias Schroder
42 Preimplantation Genetic Diagnosis
Pieternel Steures, Ben W.J. Mol, and Fulco van der Veen
43 Sperm Banking, Donation and Transport
Catherine Wheeler
44 Integrating Preimplantation Genetic Diagnosis
C. Matthew Peterson
45 Selection of Preimplantation Embryos
C. Matthew Peterson
46 Embryo Culture Techniques
Catherine Wheeler
47 In Vitro Maturation of Human Oocytes
Kenneth I. Aston and Klaus E. Wiemer
48 The Impact of Complementary Medicine on In-Vitro Fertilization
Maj Hultén, Edward Smith, and Joy Delhanty
49 Preserving Fertility
Kutluk Oktay and Ozgur Oktem
50 Ovulation – a Molecular View
Valerie Savasi and Enrico Ferrazzi
51 Sterility – a Molecular View
Valerie Savasi and Enrico Ferrazzi
52 The Genetic and Epigenetic Contributions of Sperm to Early Embryogenesis
Denny Sakkas, Maria Lalioti, Hasan M. El-Fakahanya, and Emre Seli
53 The Role of the Institutional Review Board (IRB)
Benjamin R. Emery and Mark A. Munger
54 Integrating Research into a Clinical Practice
Helen Ghislaine Tempest and RenÀ‡Àœèo Hooge
55 Designing a Clinical Research Infrastructure
Maj Hultén, Edward Smith, and Joy Delhanty
56 Technology Transfer and its Role in the Practice of Reproductive Endocrinology and Infertility
Benjamin R. Emery and Mark A. Munger
57 The Environment and Reproduction: Endocrine Disruption, Reproduction Impairment and Epigenetics
C. Matthew Peterson, Douglas T. Carrell, Michel Varner, Joseph Stanford, Mary Crouch, and Germaine Buck Louis
