Weak Areas and Pathologies

1. Understanding Weak Areas

Four Obstacles to Developing the Biceps
Small Biceps
Short Biceps
Imbalance Between the Long and Short Heads
Small Brachialis

Two Obstacles to Developing the Triceps
Small Triceps
Imbalance Between the Heads

Five Obstacles to Developing the Forearms
Forearms Are Too Small
Forearms Are Too Large
Small Brachioradialis
Imbalances Between Flexor and Extensor Muscles
Weak Hands
