Candida and Candidiasis

Calderone, Richard A.

Table of Contents

Contributors
Preface
Acknowledgments

I. History and General Properties of Candida
1. Introduction and Historical Perspectives
   Richard A. Calderone
2. Taxonomy and Biology of Candida
   Richard A. Calderone
3. Serological Differences among the Pathogenic Candida spp
   Shigeo Suzuki
4. Emergence of Non-Candida albicans Candida Species as Pathogens
   Gary P. Moran, Derek J. Sullivan, David C. Coleman
5. Population Genetic Analyses of Candida
   Jianping Xu, Thomas G. Mitchell

II. Virulence Properties
6. Host Recognition by Candida Species
   Richard Calderone, Neil A. R. Gow
7. Expression of Growth Form-Specific Factors during Morphogenesis in Candida albicans
   Alistair J. P. Brown
8. Morphogenetic Signaling Pathways in Candida albicans
   Alistair J. P. Brown
9. Extracellular Hydrolases
   Bernhard Hube, Julian Naglik
10. Phenotypic Switching
    David R. Soll

III. Cell Biology
11. Cell Biology and Cell Cycle of Candida
    Neil A. R. Gow
12. The Cell Wall of Candida spp
    Neeraj Chauhan, Dongmei Li, Praveen Singh

IV. Immunity
13. Host Defense against Oral, Esophageal, and Gastrointestinal Candidiasis
    Herbert L. Mathews, Linda Witek-Janusek
14. Host Defense against Vaginal Candidiasis
    Paul L. Fidel, Jr., Jack D. Sobel
15. Immunology of Cutaneous Candidiasis
    Peter G. Sohnle, Maqsood Bhatti, David K. Wagner
16. Immunology of Invasive Candidiasis
    Luigina Romani
17. Immunoprotection against Candidiasis
    Jim E. Cutler, Bruce L. Granger, Yongmoon Han

V. Genomics
18. Gene Discovery and Comparative Genomics: Progress and Prospects
    Stewart Scherer
19. Gene Expression and Genetic Techniques
    Joachim F. Ernst, Dirk P. Bockmuhl
20. Standard and Nonstandard mRNA Decoding in Candida
    Justin M. O'Sullivan, Manuel A. S. Santos, Mick F. Tuite
21. The Genomes of Candida albicans and Other Candida Species
    P. T. Magee, Hiroji Chibana

IV. Diseases Caused by Candida Spp
22. Skin and Mucous Membrane Infections
    Markus Ruhnke
23. Candidemia
    Bart Jan Kullberg, Scott G. Filler
24. Deep-Seated Candidal Infections
    Scott G. Filler, Bart Jan Kullberg
   Dominique Sanglard, Jacques Bille

VII. Laboratory Work Up of Candidiasis
26. Culture-and Non-Culture-Based Diagnostics for Candida Species
   Malcolm D. Richardson, Petteri Carlson

27. Non-Culture-Based Diagnostics
   Jose Ponton, Maria D. Moragues, Guillermo Quindos

28. Molecular Approaches to Identification and Typing of Candida Species
   Derek J. Sullivan, David C. Coleman

Index
