### SECTION I: PREOPERATIVE QUESTIONS

Table 1 How Do You Decide When a Patient Is “Ready” for a Total Knee Replacement? Is There a Downside to Waiting Until They Have More Severe Disease?  
Carlos Lavernia, MD and Diego Cardona, MD  

Table 2 Management of Unicompartmental Osteoarthritis of the Knee  
Michael Archibeck, MD  

Table 3 I Have a Patient With a Deformity of the Distal Femur and Arthritis of the Knee. Should I Do an Osteotomy to Correct the Deformity at the Time of Total Knee Arthroplasty?  
Jess H. Lonner, MD  

Table 4 If a Patient Has a Clearly Visible Calcified Vessel in the Posterior Aspect of Their Knee on the Preoperative Radiograph, Should I Use a Tourniquet? What About the Patient with a History of Prior Bypass Grafts?  
Raphael C. Y. Hau, MBBS, FRACS and Bassam A. Masri, MD, FRCSC  

Table 5 Should My Patients Donate Blood Prior to Surgery?  
Fred Cushner, MD  

Table 6 When Do You Do a One-Stage Bilateral Total Knee Arthroplasty as Opposed to Staging Them?  
Steve Lyons, MD  

Table 7 Should the Patella Be Routinely Resurfaced at the Time of Total Knee Arthroplasty?  
Javad Parvizi, MD, FRCS and Feridon Jaberi, MD  

Table 8 I Have a Patient Who Is Very Concerned About Their Range of Motion. Should I Use a High Flex Type Component?  
Giles R. Scuderi, MD  

Table 9 I Have a 43-year Old Male Who Needs a Total Knee: Should I Use Highly Cross-linked Polyethylene as a Bearing Surface?  
Markus A. Wimmer, PhD and Joshua J. Jacobs, MD  

Table 10 I Think My Patient May Have a Charcot (Neuropathic) Knee. Is This a Contraindication to Total Knee Arthroplasty?  
R. Michael Meneghini, MD and Jeffery L. Pierson, MD  

Table 11 I Am Considering Implementing a Teaching Class Prior to Surgery for My Patients. Is This Beneficial? What Topics Should be Covered?  
Regina Barden, RN, BSN and Kim Chandler, RN  

### SECTION II: INTRAOPERATIVE QUESTIONS

Table 12 If a Patient Has Had Prior Surgery, How Do I Decide Where to Make the Skin Incision?  
Brett Levine, MD, MS  

Table 13 If I Am Doing a Total Knee Arthroplasty and the Patella Does Not Seem to Track Well, What Should I Do?  
Richard A. Berger, MD  

Table 14 How Do You Determine Appropriate Femoral Component Rotation at the Time of Surgery  
Richard Illgen II, MD and Matthew Squire, MD, MS  

Table 15 How Do I Determine Tibial Component Rotation in Total Knee Arthroplasty?  
David Manning, MD and Seann Carr, MD
Question 16 How Do I Perform a Lateral Release?
Mark D. Campbell, MD

Question 17 The Femoral Component Sizing Guide Is Measuring Between Two Sizes. Should I Choose the Smaller or Larger Size?
Frank R. DiMaio, MD

Question 18 What Is Flexion Instability and How Do I Prevent It During Total Knee Arthroplasty?
David J. Jacofsky, MD

Question 19 I Am Doing a Total Knee in a Patient With a Varus Deformity. I Have Done My Standard Release and the Knee Is Still Tight Medially. What Should I Do?
Gregg R. Klein, MD and Mark A. Hartzband, MD

Question 20 When Performing a Total Knee Arthroplasty in a Patient With a Valgus Deformity, What Structures Do You Release First?
Keith R. Berend, MD

Question 21 If I Am Doing a Total Knee and It Is Too Tight in Extension, But Otherwise Feels Well Balanced, What Should I Do?
Steven Stuchin, MD

Question 22 The Patella Measures 22 Millimeters Prior to Making My Osteotomy. How Much Bone Should I Remove?
Hari P. Bezwada, MD and Robert E. Booth, Jr., MD

Question 23 What Should I Do If I Cut the MCL Intraoperatively?
Scott D. Ruhlman, MD; Shanon M. Sara; and Seth S. Leopold, MD

Question 24 When Do You Use Antibiotic-Loaded Cement?
Mohammad Namazian, DO and Paul E. Di Cesare, MD

Question 25 Do You Inject the Capsule With Anything at the End of the Case in an Effort to Decrease Perioperative Pain?
Amanda Marshall, MD

SECTION III: POSTOPERATIVE QUESTIONS

Question 26 I Have a Patient Who Is 2 Weeks Postoperative From a Primary Total Knee Arthroplasty and the Wound Is Draining. What Should I Do?
Carl Deirmengian, MD

Question 27 What Is the Best Method for Preventing Thromboembolic Events After Total Knee Arthroplasty?
Jay R. Lieberman, MD

Question 28 In the Recovery Room My Patient Does Not Have a Distal Pulse in the Operative Leg. What Should I Do?
Kevin B. Fricka, MD

Question 29 My Patient Has a Foot-Drop After Surgery. What Should I Do?
Mark F. Schinsky, MD and William Macaulay, MD

Question 30 What Criteria Do You Use for a Manipulation Under Anesthesia?
Harpal Singh Khanuja, MD

Question 31 I Have a Patient Who Fell 3 Months Postoperatively and Fractured Their Patella. Should I Try and Fix It?
Craig J. Della Valle, MD and Daniel J. Berry, MD

Question 32 I Have a Patient Who Tripped and Fell 3 Months After a Total Knee Arthroplasty and Has a Supracondylar Femur Fracture. What Is the Optimal Method of Treatment?
Mark Dumonski, MD and Walter Virkus, MD

Question 33 How Do You Manage Acute Extensor Mechanism Disruptions?
Cory L. Calendine, MD and Kevin B. Fricka, MD

SECTION IV: REVISION QUESTIONS

Question 34 How Do You Evaluate the Patient With a Painful Total Knee Arthroplasty?
Michael J. Archibeck, MD

Question 35 What Is the Best Test for Diagnosing Periprosthetic Infection?
Craig J. Della Valle, MD

Question 36 If I Am Doing a Revision Total Knee and Can't Seem to Get Adequate Exposure, What Should I Do?
Craig J. Della Valle, MD

Question 37 When Doing a Revision Total Knee, Do You Start Reconstructing the Femur or Tibia First?
David G. Nazarian, MD

Question 38 Should I Use Stems on All of My Revision Total Knee Components?
Steven H. Weeden, MD and Wayne Paprosky, MD

Question 39 If I Use a Stem at the Time of a Revision Total Knee Arthroplasty, Should I Press-Fit the Stem or Cement It?
Craig J. Della Valle, MD and Aaron G. Rosenberg, MD
Question 40 When Do You Use an Offset Stem During Revision Total Knee Replacement?
Scott M. Sporer, MD, MS

Question 41 How Do You Handle Massive Bone Loss at the Time of Revision Total Knee Arthroplasty?
Allan E. Gross, MD, FRCSC, O.Ont

Question 42 How Do I Decide If I Should Retain the Patellar Component at the Time Of Revision Total Knee Arthroplasty?
Thomas E. Brown, MD; Khaled Saleh, MD, MSc, FRCSC; Quan Jun Cui, MD, MS; and William Mihalko, MD, PhD

Question 43 How Do You Manage the Patient With Severe Patellar Bone Loss at the Time of Revision Total Knee Arthroplasty? Kevin J. Bozic, MD, MBA and Michael D. Ries, MD

Question 44 How Do You Assess Joint Line Position at the Time of Revision Total Knee Arthroplasty? What Are the Clinical Consequences If It Is Elevated? Richard S. Laskin MD

Question 45 When Should I Use a Constrained Condylar Insert as Opposed to a Posterior Stabilized Insert?
Kelly G. Vince, MD, FRCS

Question 46 How Should I Manage the Patient With Chronic Extensor Mechanism Deficiency Associated with a Total Knee Arthroplasty?
R. Stephen J. Burnett, BSc, MD, FRCS(C), Dipl. ABOS and Robert L. Barrack, MD

Question 47 Do You Use Static or an Articulating Spacer for Resection Arthroplasty Prior to Reimplantation?
Alexander Siegmeth, FRCS (Tr & Orth) and Donald Garbuz, MD, FRCSC

Question 48 What Are Your Indications for a Knee Fusion?
Andrew A. Freiberg, MD

Question 49 How Do You Manage the Patient with an Unexpectedly Positive Culture at the Time of a Revision Total Knee Arthroplasty?
Patrick M. Morgan, MD and John C. Clohisy, MD
