Colorectal Cancer: Evidence-Based Chemotherapy Strategies
Saltz, Leonard B. MD

Table of Contents

Molecular biology of colon cancer
William M. Grady

Chemoprevention of colorectal cancer
Yu-Ning Wong, Wen-Chi Chang, Margie Clapper, Paul F. Engstrom

Colorectal cancer screening and surveillance
Arnold J. Markowitz

Cytotoxic chemotherapy for metastatic colorectal cancer
M. Wasif Saif, Richard Kim, Edward Chu

Integration of antiangiogenic strategies into colorectal cancer treatment
John M. Strother, Charles D. Blanke

The role of EGFR inhibition in colorectal cancer
Nabeel Shalan, Paulo M. Hoff

Second-line strategies in the treatment of patients with metastatic colorectal cancer
Anthony B. El-Khoueiry, Heinz-Josef Lenz

Adjuvant chemotherapy for colon cancer
Bert H. O'Neil, Hanna Kelly, Michael A. Morse, Richard M. Goldberg

Management of locally advanced rectal cancer
Yu Jo Chua, David Cunningham

Rationale for adjuvant and neoadjuvant chemotherapy in the resection of liver metastases
Axel Grothey, Steven A. Alberts

Percutaneous radiofrequency ablation in the management of patients with colorectal cancer
Karen Brown

Colorectal cancer imaging
Sean D. Curran, Laurence H. Schwartz

Nursing issues in colorectal cancer chemotherapy
Ellen Hollywood, Deborah Semple

Pain management in the colorectal cancer patient
Vivek Tim Malhotra

Novel agents and new paradigms for colorectal cancer: beyond EGFR and VEGF
Chris Takimoto, Russell Kruzelock
