Contents

Foreword

Preface

Acknowledgement

BASIC VESTIBULAR ASSESSMENT

Chapter 1: Introduction to the Vestibular Laboratory

Chapter 2: An Introduction to Videonystagmography (VNG) Test Protocols/VNG Demonstration

Chapter 3: ENG Demonstration

Chapter 4: Ocular Motor Examination

Chapter 5: Positional Examination

Chapter 6: Positioning Examination

Chapter 7: Air Caloric Examination

Chapter 8: Water Caloric Examination

Chapter 9: Performing Bedside Examinations

ADVANCED VESTIBULAR ASSESSMENT

Chapter 10: Rotational Chair ? Sinusoidal Harmonic Acceleration (SHA)

Chapter 11: Rotational Chair ? Step Velocity Test (SVT)

Chapter 12: Rotational Chair - Visual Vestibular Interactions (VVI)

Chapter 13: Computerized Dynamic Posturography (CDP) ? Sensory Organization Test (SOT)

Chapter 14: Computerized Dynamic Poturography ? Motor Control Test/Adaptation Test (MCT/ADT)

Chapter 15: Computerized Dynamic Posturography ? Postural Evoked Response (PER)

Chapter 16: Computerized Dynamic Posturography ? Dynamic Visual Acuity (DVA), Head Shake SOT

Chapter 17: Auto Head Rotation (AHR)

Chapter 18: Rotational Chair ? Otolith Function Test Subjective Visual Vertical Measures (SVV)

Chapter 19: Vestibular Evoked Myogenic Potentials (VEMP)

Chapter 20: Case Studies
