Sellar and Parasellar Tumors
Diagnosis, Treatments, and Outcomes

Edward R. Laws Jr., MD, FACS
Professor of Neurosurgery
Harvard Medical School
Director
Pituitary–Neuroendocrine Program
Department of Neurosurgery
Brigham and Women's Hospital
Boston, Massachusetts

Jason P. Sheehan, MD, PhD, FACS
Alumni Professor
Department of Neurological Surgery
University of Virginia
Charlottesville, Virginia
Contents

Foreword ................................................................. vii
Preface .................................................................... ix
Contributors .......................................................... xi

1 Introduction and Historical Perspective .................................................. 1
   Edward R. Laws Jr. and Zachary N. Litvack

2 Anatomy of the Sellar and Parasellar Region .......................................... 8
   Albert L. Rhoton Jr.

3 Radiologic Evaluation and Diagnosis for Pathology in the Sellar and Parasellar Region ....... 50
   Prashant Raghavan and Max Wintermark

4 Medical Evaluation and Management ................................................... 61
   Mary Lee Vance

5 Ophthalmologic Evaluation and Management ........................................... 65
   Steven A. Newman

6 Surgical Treatment of Pituitary Adenomas ............................................. 124
   Soriya Motivala, Yakov Gologorsky, Joshua Bederson, and Kalmon D. Post

7 Surgical Treatment of Meningiomas .................................................... 135
   Ossama Al-Mefty and Ian F. Dunn

8 Surgical Treatment of Craniopharyngiomas ......................................... 145
   R. Michael Scott and Edward R. Smith

9 Surgical Treatment of Chordomas and Chondrosarcomas ................. 155
   Devyani Lal, Nancy J. Fischbein, and Griffith R. Harsh IV

10 Surgical Treatment of Rathke Cleft Cysts ............................................. 170
    Erin N. Kiehna, Spencer C. Payne, and John A. Jane Jr.

11 Transsphenoidal Approaches to the Sellar and Parasellar Area ............ 177
    Daniel M. Prevedello

12 Transcranial Approaches to the Sellar and Parasellar Area .................... 187
    Bradley N. Bohnstedt, Todd Eads, R. Shane Tubbs, and Aaron A. Cohen-Gadol

13 Radiation Therapy ............................................................................. 199
    Itai Pashtan, Kevin S. Oh, and Jay S. Loeffler

14 Stereotactic Radiosurgery ..................................................................... 216
    Ricky Medel, Brian Williams, and Jason P. Sheehan
15 Intracavitary Radiation for Cystic Craniopharyngiomas
L. Dade Lunsford, Ajay Niranjan, Hideyuki Kano, Peter Kang, and Douglas Kondziolka

16 Chemotherapy Options for Sellar and Parasellar Tumors
Arnaldo Neves Da Silva and David Schiff
