

# **Lippincott's Illustrated Q&A Review of Biochemistry**

**Lieberman, Michael A.**

**ISBN-13: 9781605473024**

## **Table of Contents**

- 1: Biochemical Compounds
- 2: Protein Structure and Function
- 3: DNA Structure
- 4: RNA Synthesis
- 5: Protein Synthesis
- 6: Regulation of Gene Expression
- 7: Molecular Medicine and Techniques
- 8: Energy Metabolism Overview
- 9: Hormones and Signaling Mechanisms
- 10: Glycolysis and Gluconeogenesis
- 11: TCA Cycle and Oxidative Phosphorylation
- 12: Glycogen Metabolism
- 13: Fatty Acid Metabolism
- 14: HMP Shunt and Oxygen Radicals
- 15: Amino Acid Metabolism and the Urea Cycle
- 16: Phospholipid Metabolism
- 17: Whole-body Lipid Metabolism
- 18: Purine/Pyrimidine Metabolism
- 19: Diabetes and Metabolic Syndrome
- 20: Nutrition and Vitamins
- 21: Human Genetics and Cancer
