Table of Contents

Section I Introduction to Basic Concepts of Glaucoma Surgery

Chapter 1 The Surgical Decision-Making Process
Kathryn L. Pepple, MD, PhD and
R. Rand Allingham, MD

Chapter 2 Surgical Anatomy
David Fleischman, MD and John P. Berdahl, MD

Chapter 3 Wound Modulation After Filtration Surgery
Leonard K. Seibold, MD and Malik Y. Kahook, MD

Section II Trabeculectomy

Chapter 4 Trabeculectomy Surgery: Decision Making and Technique
Marcos Reyes, MD; James A. Fox, MD; and
Mahmoud A. Khaimi, MD

Chapter 5 Trabeculectomy: Management of Postoperative Complications
Jonathan Eisengart, MD

Section III Glaucoma Drainage Device Implantation

Chapter 6 Preoperative Evaluation for Glaucoma Drainage Device Surgery
Joshua D. Stein, MD, MS

Chapter 7 Types of Glaucoma Drainage Implants
Jeffrey Zink, MD

Chapter 8 Standard Technique for Implanting Glaucoma Drainage Devices
Joshua D. Stein, MD, MS

Chapter 9 Location of Glaucoma Drainage Implants and Tubes
Gabriel T. Chong, MD and Richard K. Lee, MD, PhD

Chapter 10 Use of Antimetabolites With Tube Shunt Surgery
Anup K. Khatana, MD

Chapter 11 Considerations on Day of Glaucoma Drainage Implant Surgery
Jeffrey Zink, MD

Chapter 12 Postoperative Management of Glaucoma Drainage Implants
Jeffrey Zink, MD

Chapter 13 Glaucoma Drainage Devices: Management of Intraoperative and Postoperative Complications Jonathan Eisengart, MD

Section IV Glaucoma Surgery Combined With Cataract Extraction

Chapter 14 Cataract Surgery and Intraocular Pressure
John P. Berdahl, MD and Thomas W. Samuelson, MD

Chapter 15 Endoscopic Cyclophotocoagulation
Steven R. Sarkisian Jr., MD

Chapter 16 Combined Phacoemulsification and Trabectome
Michael B. Horsley, MD and Douglas J. Rhee, MD
